# The all-new electric CLA The CLA 250+ with EQ technology

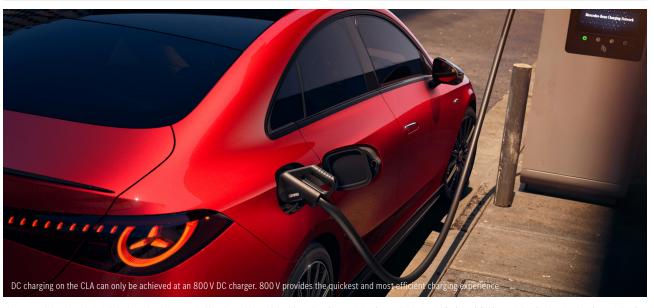

Experience the future of performance with the new CLA - built on a groundbreaking BEV drivetrain and equipped with our next-gen 85kW NMC battery, it redefines electric driving with instant power, dynamic agility, and a smaller carbon footprint.

CLA 250+ with EQ technology Battery electric vehicle, 272 hp/200 kW Electric range 462-484 miles - WLTP

#### Available as:

Sport Edition, AMG Line Edition and AMG Line Premium Edition

OTR from £45,6151

Standard equipment	
85 kW (usable) NMC battery	Charging system - rated at 11 kW AC
Acoustic presence indicator	Charging system - rated at 320 kW DC
Charging cable - Mode 3 cable (7 metres,	Comfort suspension
straight) for wallbox and public charging stations	Mercedes-Benz App – Remote Services and extended MBUX functions <sup>2</sup>

Technical details	
Equivalent All-Electric Range (EAER) <sup>3</sup>	462-484 miles
Charging time DC charging station (320 kW DC) 10-80% <sup>4</sup> AC charging station (11 kW AC) 0-100% <sup>5</sup>	22 mins 9 hrs
Electric energy consumption, combined <sup>3,6</sup>	125-131Wh/km
Battery type (usable)	NMC (85 kW)
Capacity on-board charger	11 kW AC, 320 kW DC

The recommended on-the-road price includes the Road Fund Licence applicable to the standard model plus delivery charge (£780.00 incl. VAT), new vehicle registration fee (£55.00), fuel (£50.00 incl. VAT), VAT is calculated at the standard rate of 20%. Some of the model features, optional extras and colours shown may not be available, or may only be available in a different specification, or at a different specification, or at a different price 2The connection of the communication module to the mobile phone network including the emergency call system depends on the respective network providers 3The indicated values were determined according to the prescribed measurement method - Worldwide Harmonised Light Vehicle Test Procedure (WLTP). Figures shown may include options which are not available in the UK. For Plug-in Hybrid Electric Vehicle (PHEV) figures determined with the battery power and fuel. These models require mains electricity for charging 4Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10-80% charge using a wallbox (three-obase) or standard socket (single-phase). DC charging on the CLA can only be achieved at an 800 V Dr. charger, 800 V provides the quickest and most efficient charging experience

\*\*Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 0-100% charge using a wallbox The certified electrical consumption is generally determined at maximum AC charging capacity using a Mode 3 cable. It is therefore recommended that vehicles with a HV battery preferably be charged at a wallbox or an AC charging station with a Mode 3 cable in order to achieve shorter charging times and improved charging efficiency

# $MB.CHARGE\ Public^1$ One registration, one contract, one billing

MB.CHARGE Public<sup>1</sup> provides access to a multitude of public charging stations located in shopping centres, hotels or at motorway services. A smartphone app as well as the vehicle's navigation system show the precise location, current availability and price at the selected charging station.

# MB.CHARGE Public - Private customer

### Tens of thousands charging stations in the UK

Growing network of charging providers includes bp pulse the largest charging network in the UK.

# Access to fast-charging stations

Enables customers to get access to charging stations of different providers with:

- Mercedes-Benz app
- · RFID card
- · Vehicle Head unit

### **Green charging**

All charging using MB.CHARGE Public, will be retrospectively 'greened' by Mercedes-Benz.

### Transparent and easy billing

One invoice charging processes for payment.

## Easy access

Charging stations are displayed in Mercedes-Benz app and in MBUX multimedia system.

### No fees

Enjoy free access to MB.CHARGE Public's convenient, reliable, and user-friendly charging network.

# MB.CHARGE Public - Business customer

## **Key features**

- All MB.CHARGE Public Private customer features<sup>2</sup>
- Charging fleet portal

- · Company payment and billing
- · Flexible prices per kWh

1 The connection of the communication module to the mobile phone network including the emergency call system depends on the respective network coverage and availability of network providers

<sup>2</sup>Excluding MB.CHARGE Public Private customer tariffs

# MB.CHARGE Public<sup>1</sup> Private customer tariffs<sup>2</sup>

For more transparency and predictability, enjoy numerous features tailored to your charging habits with the MB.CHARGE Public for private customers<sup>1,2</sup> fixed-priced tariffs S, M and L.<sup>2</sup> Owners of a new Plug-in Hybrid model will be entitled to the MB.CHARGE Public¹ tariff M free of charge for the duration of 12 months.2\*

# Tariff L<sup>2</sup>

### Recommended for 'frequent drivers'

Choose our tariff L to benefit from the best fixed prices for public charging, including discounted rapid-charging at IONITY charging stations as well as all MB.CHARGE Public1 features. This tariff is recommended for frequent and longdistance drivers.

#### Consisting of:

- All MB CHARGE Public<sup>1</sup> features
- Fixed prices per kWh (AC: £0.45/kWh, after 300 mins +£0.06/min; DC: £0.62/kWh)3
- · IONITY rapid-charging stations discounted (£0.53/kWh)

# £10.90/month

# Tariff M<sup>2</sup>

### Recommended for 'regular drivers'

Owners of a new Plug-in Hybrid model are entitled to the tariff M free of charge for 12 months, benefitting from fixed prices, discounted rapid-charging at IONITY charging stations and complete transparency. This tariff is recommended for regular drivers.

## Consisting of:

- All MB CHARGE Public<sup>1</sup> features
- Fixed prices per kWh (AC: £0.52/kWh, after 300 mins +£0.06/min; DC: £0.69/kWh)3
- · IONITY rapid-charging stations discounted (£0.60/kWh)

Free of charge for the duration of 12 months.2\* Thereafter: £4.90/month

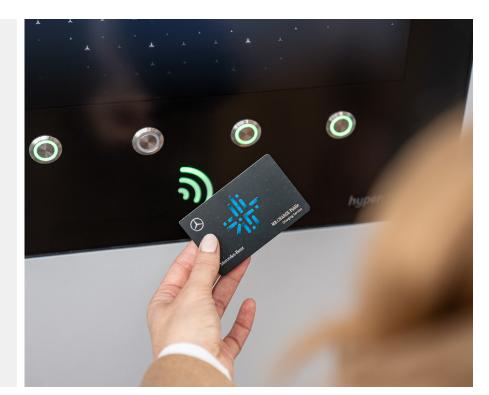

# Tariff S<sup>2</sup>

#### Recommended for 'casual drivers'

Should you wish to downgrade your tariff package after 12 months, there is the option to go for tariff S, which still offers you all the MB.CHARGE Public<sup>1</sup> features based on flexible prices per kWh. This tariff is recommended for casual drivers.

#### Consisting of:

- All MB.CHARGE Public<sup>1</sup> features
- · Flexible prices per kWh

# £0/month

The connection of the communication module to the mobile phone network including the emergency call system depends on the respective network coverage and availability of network providers 2This offer is exclusively for consumers. The distinction between consumer and business is determined by the type of vehicle linkage (private profile or company profile) the BP Pulse charging network Price information is not guaranteed and is subject to change. Please be aware that this tariff will automatically renew after the 1 year promotion period - for definitive pricing information or should you not wish to continue with the tariff, your cancellation rights and current pricing can be found https://eu.charge.mercedes-benz.com/web/en/mb-gb/tariffs \*The Tariff (L and M) and IONITY promotions for MB.CHARGE end on 30.11.2025. Customers must register by this date to qualify

# Next generation of home EV charging with Ohme

Mercedes-Benz plug-in vehicle customers with off-street parking can benefit from the convenience and speed of charging at home by installing an Ohme charger.

# Home charging with Ohme: from £925\* incl. VAT and standard installation

#### Key benefits of Ohme:

Ohme specialise in providing future-proof electric vehicle charging solutions, in particular smart, affordable and easyto-use charging products.

Save money: If you have a time-of-use tariff or a variable tariff, you'll pay less for your electricity at certain times of the day. Ohme uses your tariff information to charge your vehicle when the price is low to maximise your savings.

Ohme is the only EV charging provider to integrate with all energy tariffs, including Intelligent Octopus and OVO Charge Anytime - the next generation, smart EV charging tariffs.

Easy installation process.

Choice of tethered or untethered units.

Award-winning customer service check Trustpilot for more information. A 3-year warranty is included.

Connect your charger to the Ohme smartphone app to unlock smarter and cheaper charging at home. Easy-to-use, the Ohme app will give you full control to get more from your EV.

Ohme's chargers are compliant with the UK New Smart Charger Regulations for complete peace of mind.

#### **OZEV Grant:**

You may be entitled to claim an OZEV grant towards the cost of your home charger. To check your eligibility, simply contact your local Mercedes-Benz Agent.

#### Questions?

Need help with home charging solutions? Simply contact your nearest Mercedes-Benz Agent - they'll be happy to submit an enquiry to your preferred charging partner on your behalf.

## Warning!

If you are planning to charge your Mercedes-Benz plug-in electric vehicle using a 3-pin domestic plug socket you must get a qualified electrician to inspect and sign off the socket to confirm it is safe and suitable to charge your vehicle. Do not use an electric vehicle 3-pin charge cable with an extension cord.

\*Price excludes £350 OZEV EVHS Grant. Price correct at time of publication, subject to change <sup>1</sup>The home charger £350 Grant (including VAT) is only available to customers who meet the criteria of the Office for Zero Emission Vehicles (OZEV). Full details and eligibility criteria for the OZEV EVHS Grant can be found here

# Home charging with Pod Simple, convenient, fast charging

Mercedes-Benz plug-in vehicle customers with off-street parking can benefit from the convenience and speed of charging at home by installing a Pod Point home charger.

# Home charging with Pod: from £925\* incl. VAT and standard installation<sup>1</sup>

### Key benefits of Pod:

Pod is one of the leading provider of EV charging in the UK with over 250,000 home chargepoints installed.

Auto Power Balancing lets you adjust your charge so that your electrical supply doesn't get overloaded when your home is using a lot of energy.

Built-in earthing protection removes the needs for expensive earth rods.

Choice of tethered or untethered units; £925 for a 7kW universal, and £975 for 7kW tethered.

The Pod public network consists of over 9,200 charging bays across the UK.

5 year warranty as standard, free of charge.

The standard installation package includes up 15 m of external cabling.

Utilise charge scheduling in conjunction with an off-peak EV tariff to reduce your charging costs by up to 70% compared with the current Energy Price Cap.2

#### **OZEV Grant:**

You may be entitled to claim an OZEV grant towards the cost of your home charger.3 To check your eligibility, simply contact your local Mercedes-Benz Agent.

#### Questions?

Need help with home charging solutions? Simply contact your nearest Mercedes-Benz Agent - they'll be happy to submit an enquiry to your preferred charging partner on your behalf.

## Warning!

If you are planning to charge your Mercedes-Benz plug-in electric vehicle using a 3-pin domestic plug socket you must get a qualified electrician to inspect and sign off the socket to confirm it is safe and suitable to charge your vehicle. Do not use an electric vehicle 3-pin charge cable with an extension cord.

\*Price excludes £350 OZEV EVHS Grant. Price correct at time of publication, subject to change 1-Full terms and conditions of home charging with Pod can be found here 2-Based on an off-peak tariff of 8 p/kWh compared with the energy price cap until 31 March 2025 of 24.86 p/kWh The home charger £350 Grant (including VAT) is only available to customers who meet the criteria of the Office for Zero Emission Vehicles (OZEV). Full details and eligibility criteria for the OZEV EVHS Grant can be found here

Digital Extras (vehicle must be paired to a Mercedes me ID and services must be active	ated)
--	-------

- Functions when route guidance is active: If you have activated a navigation route and are approaching a route-relevant exit in the left-hand lane of the motorway, the system decelerates to an appropriate speed.

This also works without active route guidance as soon as you press the turn signal indicator

# Genuine accessories

We've developed a range of accessories you can add to help personalise and enhance your CLA.

### All season floor mats

Floor mats have to undergo rigorous testing before they are deemed worthy of the star logo: durability, fade-resistant colour and a neutral odour.

The mats are precision-tailored to your Mercedes-Benz.

(front: A17768080029G33; rear: A17768085029G33)

### Boot mat, reversible

This anti-slip mat by Mercedes-Benz protects the boot floor during loading and unloading. Made from 100% polyester. Double-sided: with rubberised, non-slip side and high-quality velour side. Prevents cargo from sliding around. Protects the load compartment floor from dirt and damp. Easy to clean with warm water. (A1746806301)

## **Boot tub**

Made from impact-resistant, non-slip polypropylene with ribbed texture. Vehicle's load-securing rings remain accessible. (A1748140000)

# Concertina load sill protector

The concertina load sill protector not only protects the boot, but also protects the bumper and boot sill from becoming scratched. (A2536931900)

All the above accessories are subject to availability and compatibility. Please ask your Mercedes-Benz Authorised Repairer for more information Images shown are for illustration purposes only

DC charging on the CLA can only be achieved at an 800V DC charger. 800V provides the quickest and most efficient charging experience

Figures according to Directive 80/1269/EEC in the currently applicable version and in the UK. For Plug in Hybrid Electric Vehicle (PHEV) figures determined with the battery fully charged, using a combination of both battery power and fuel. These models require mains electricity for charging station with a Mode 3 cable in order to achieve shorter charging times and improved charging efficiency

4Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10-80% charge using a wallbox (three-phase). DC charging on the CLA can only be achieved at an 800 V DC charger. 800 V provides the quickest and most efficient charging times and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10-80% charge using a wallbox. experience Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 0-100% charge using a wallbox (three-phase) or standard socket (single-phase) "Mass of the vehicle in running order with at least 90% full fuel tank, plu's the mass of the driver (estimated by law at 75 kg), fuel and fluids, equipped with the standard equipment as specified by the manufacturer as well as, where applicable, the mass of the body, cab, trailer coupling and spare wheel(s) as well as tools. Optional extras, additional equipment and accessories can influence the weight, residual payload, rolling resistance, aerodynamics, etc., and therefore also affect the consumption/CO<sub>2</sub> values

# Road Fund Licence

All road vehicle registrations are subject to Vehicle Excise Duty (Road Fund Licence), which varies in accordance with the vehicle's CO<sub>2</sub> emissions. A first year rate for each taxation band will apply. The table below shows the bands (A-M) created by the DVLA and the corresponding Road Fund Licence. CO<sub>2</sub> emissions and the relevant Excise Duty are shown on the model pricing pages.

Road fund licence rates for tax year 2025/26, effective from 1 April 2025

# Services and insurance

# Mercedes-Benz Service Plans

We believe that servicing and repair costs should be as flexible and affordable as possible for your CLA, which is why we offer a choice of Service Plans to make it easy to budget for all your servicing, MOT and repair costs. It spreads your bills into manageable monthly payments based on whether you have a new or used Mercedes-Benz.

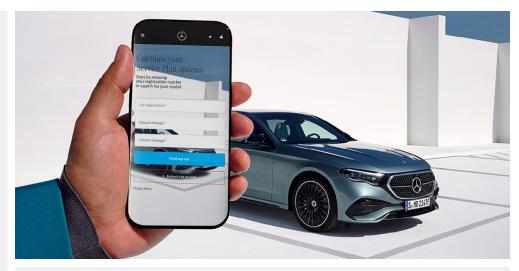

- ServiceCare guarantees the price of parts and labour for up to four services and safeguards against any inflationary influences. It also covers your annual MOT fees depending on the age of your vehicle when you take your plan out.
- CompleteCare our most comprehensive plan covering all your servicing, MOT, wear & tear needs as well as Extended Warranty once your vehicle turns four years old.
- Extended Warranty protect yourself against sudden or unexpected repair costs after your initial warranty period has ended after three years. There are three policy options to choose from: 12-month, 24-month or a monthly pay-as-you-go option.

Click here for more information

### **Motor Insurance**

We know that once you have chosen your Mercedes-Benz you can't wait to drive it - that's why we created First Cover<sup>1</sup>. It gives you 5 days' free comprehensive Motor Insurance when you buy a new or used vehicle from a Mercedes-Benz Agent. We will also send you a quote for annual cover, so you can enjoy the same peace of mind all year round.

Apply for First Cover

# **Battery Warranty**

The battery is under warranty for either a maximum distance of 100,000 miles or up to eight years from the date of first registration, whichever comes first.

# Warranty and breakdown cover

Every Mercedes-Benz comes with a three-year unlimited mileage warranty against manufacturing or material defects<sup>2</sup> and up to 30 years warranty against perforation due to corrosion from the inside out.3 What's more, it's also covered by Mercedes-Benz Roadside Assistance – a unique package comprising up to 30 years pan-European breakdown assistance.3

<sup>1</sup>Terms and Conditions apply. We are an independent intermediary dealing with selected insurers in respect of annual insurance

<sup>2</sup>Applies to vehicles sold by Mercedes-Benz in the UK to its franchised Mercedes-Benz Agents

<sup>3</sup>Subject to full Terms and Conditions, dependent on date of registration, available upon request

Effective from June 2025 Production. Information correct at time of publication 08.05.2025. Prices and specifications are subject to change without prior notice. MBC178PL/0725 MY805+055
