# Mercedes-Benz User Experience (MBUX)

Transforming the in-car user experience, thanks to MBUX: Controlled via voice, touch or optional gesture input, the innovative infotainment system can over time even predict personal habits thanks to artificial intelligence.

## Voice control

- Activated by the keywords “Hey Mercedes”, the new intelligent voice control LINGUATRONIC<sup>1</sup> lets you control many of the infotainment functions, including destination input, phone calls or music selection
- MBUX is able to understand different accents and will adjust to you over time
- MBUX even understands indirect commands. Feeling chilly? Just say “I feel cold” and MBUX will adjust the temperature for you

## Touch inputs

- Beside voice control you can operate MBUX via touchscreen, as well as touch control buttons on the steering wheel

## Personalisation

- Turn the new EQA into your very own Mercedes-Benz by personalising driving modes, radio stations, ambient lighting and much more
- Your personal settings can be saved in up to seven different profiles, making your driving experience the best one possible
- Thanks to artificial intelligence, MBUX is able to learn and adapt over time. It will be able to predict your personal habits, such as navigation for frequently-driven routes, or the radio station you like to listen to on your way home from work

## Maintenance and service

- Wondering when the next service is due? Or how much further you can drive until you need to stop at a charging station? Just ask your MBUX - it will tell you the answer

The connection of the communication module to the mobile phone network including the emergency call system depends on the respective network coverage and availability of network providers

<sup>1</sup>LINGUATRONIC off-board functions are currently only available for three years

# Mercedes me connect Stay connected any time, anywhere.

Mercedes me is a range of innovative online services designed to enhance your Mercedes-Benz experience. Accessible via mobile, tablet or PC, Mercedes me lets you enjoy the highest standards of care and support, in a way that integrates seamlessly with your busy lifestyle.

# Mercedes *me*

### Safety and Service – Mercedes me connect helps to keep you and your car safe

Check your car's washer fluid level, tyre pressure and battery level from your phone so you'll be ready for every journey.

### Comfort – connect to your car anytime, anywhere

Forgot to lock your car? With Remote Car Lock<sup>2</sup> you will receive a notification on your smartphone to let you know. With one tap, you can lock and unlock your vehicle so you never have to worry.

### Specific services for all-electric vehicles from Mercedes-Benz

Check your charging status on the go and programme your pre-entry climate control and charging settings remotely. The specific navigation services for all-electric vehicles from Mercedes-Benz consider electrical range, topography and charging stations.

### Live Traffic Information, Parked Vehicle Locator and much more with Mercedes me connect

Forgot where you've parked? Parked Vehicle Locator<sup>1</sup> will show you exactly where your car is as long as you're in a 1-mile radius of where you parked. Real-time traffic data and dynamic route with shorter journey times.

For more information speak to your local Mercedes-Benz Agent or visit the Mercedes me connect store at [shop.mercedes-benz.com/en-gb/connect](http://shop.mercedes-benz.com/en-gb/connect)

The connection of the communication module to the mobile phone network including the emergency call system depends on the respective network coverage and availability of network providers

<sup>1</sup>Available on all models with the Vehicle Monitoring package. This option may vary between standard and additional cost dependent on the model

<sup>2</sup>Part of the Vehicle Status package. This option may vary between standard and additional cost dependent on the model

Images shown are for illustration purposes only

[Book a test drive](#)[Find your EQA](#)[Find a Showroom](#)

# EQA

The new EQA is the first all-electric member of the compact car family from Mercedes-Benz. Offering locally emission-free, efficient driving combining driving pleasure and performance with dynamic design.

## EQA 250+

Battery electric vehicle, 190 hp/140 kW  
Electric range 311–345 miles – WLTP

## EQA 350 4MATIC

Battery electric vehicle, 292 hp/215 kW  
Electric range 258–267 miles – WLTP

### Standard equipment

Acoustic ambient protection – the tone pitch changes depending on the driving conditions. You can therefore also differentiate whether you are braking or accelerating. Above 19 mph, the system is deactivated since wind and tyre noise tend to dominate at higher speeds

Battery – 66.5 kWh (EQA 350)

Battery – 70.5 kWh (EQA 250+)

Charging system – 11 kW AC

Charging system – 100 kW DC

Charging cable for wallbox and public charging stations, Type 2 (Mode 3) – 5 metres

Pre-entry climate control<sup>1</sup>

Radar-based recuperation

Suspension – comfort suspension with ride-height lowering

### Technical details

Electric range <sup>2</sup>	258–345 miles
Charging time	
Public Rapid charging (100 kW DC) 10–80% <sup>3</sup>	32 min – 35 min
Wallbox (11 kW AC) 10–100% <sup>4</sup>	6 hrs 45 min – 7 hrs 15 min
Home wallbox (11 kW AC) 10–100% <sup>4</sup>	10 hrs – 10 hrs 45 min
Electric energy consumption, combined <sup>25</sup>	164–186 Wh/km
Battery type (capacity)	lithium-ion (66.5 kWh for EQA 350; 70.5 kWh for EQA 250+)
Capacity on-board charger	11 kW AC; 100 kW DC

### Attention

Please be aware that external factors such as weather, gradient and ambient temperature amongst others can significantly impact range.

Please also note that internal factors such as driving style and climate control settings etc. can also significantly impact range.

Using the pre-entry climate control<sup>1</sup> when plugged into a charge point will ensure the perfect ambience and ensure that your car is just how you like it, as well as making sure that your battery isn't used unnecessarily to heat/cool the vehicle (maximising range).

<sup>1</sup>The connection of the communication module to the mobile phone network including the emergency call system depends on the respective network coverage and availability of network providers. <sup>2</sup>Figures shown are for comparability purposes; only compare with other cars tested to the same technical procedures. Figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, factory-fitted options, accessories fitted (post registration), variations in weather, driving styles and vehicle load. Further information about the test used to establish range, power consumption and CO<sub>2</sub> figures can be found at <http://www.mercedes-benz.co.uk/WLTP> <sup>3</sup>Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10–80% charge using public rapid charging at 100 kW <sup>4</sup>Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10–100% charge using a wallbox (three-phase) or standard socket (single-phase) <sup>5</sup>Specified voltage and current values refer to network infrastructure and can be limited by the vehicle

# Mercedes me Charge<sup>1</sup> Features

Mercedes me Charge<sup>1</sup> provides access to a multitude of public charging stations located in shopping centres, hotels or at motorway services. A smartphone app as well as the vehicle's navigation system show the precise location, current availability and price at the selected charging station.

## Tens of thousands charging stations in the UK

Growing network of charging providers includes bp pulse the largest charging network in the UK. Customers also get six months free bp pulse membership which reduces the electricity price when charging.

## Access to fast-charging stations

Enables customers to get access to charging stations of different providers with:

- Mercedes me app
- RFID card
- Vehicle Head unit

## Charging with IONITY

Discounted IONITY rapid-charging for one year at all IONITY stations.

## Green charging

All charging using Mercedes me Charge<sup>1</sup>, will be retrospectively 'greened' by Mercedes-Benz. Please click [here](#) for more info.

## Transparent and easy billing

One invoice charging processes for payment.

## Easy access

Charging stations are displayed in Mercedes me app and in MBUX multimedia system.

## No fees

Mercedes me Charge<sup>1</sup> is standard with EQA.

## Charging settings and pre-entry climate control<sup>1</sup>

Enjoy your feel-good temperature when you enter your vehicle. You can simply preheat or precool the interior by setting the temperature via the Mercedes me app. In addition, the current charge status can be retrieved at any time using the Mercedes me app.

## Navigation with Electric Intelligence

Offering you the greatest possible planning security on the road. Many items of information, such as a fast and convenient route, current state of battery charge, weather data and charging infrastructure, are interlinked. A convenient and time-efficient route is then suggested to you, including charging stops if necessary.

<sup>1</sup>The connection of the communication module to the mobile phone network including the emergency call system depends on the respective network coverage and availability of network providers

# Mercedes me Charge<sup>1</sup> Tariffs

For more transparency and predictability, enjoy numerous features tailored to your charging habits with the new Mercedes me Charge<sup>1</sup> fixed-priced tariffs S, M and L. Owners of a new all-electric model from Mercedes-Benz will be entitled to the Mercedes me Charge<sup>1</sup> tariff L free of charge for the duration of 12 months.

## Tariff L

Recommended for 'frequent drivers'

Choose our tariff L to benefit from the best fixed prices for public charging, including discounted rapid-charging at IONITY charging stations as well as all Mercedes me Charge<sup>1</sup> features. This tariff is recommended for frequent and long-distance drivers.

Consisting of:

- All Mercedes me Charge<sup>1</sup> features
- Fixed prices per kWh (AC: £0.45/kWh; DC: £0.53/kWh)<sup>2</sup>
- IONITY rapid-charging stations discounted (£0.53/kWh)

**Free of charge for the duration of 12 months.**

**Thereafter:**

**£10.90/month**

## Tariff M

Recommended for 'regular drivers'

Should you wish to downgrade your tariff package after 12 months but still want to benefit from fixed prices, discounted rapid-charging at IONITY charging stations and complete transparency, choose tariff M. This tariff is recommended for regular drivers.

Consisting of:

- All Mercedes me Charge<sup>1</sup> features
- Fixed prices per kWh (AC: £0.52/kWh; DC: £0.61/kWh)<sup>2</sup>
- IONITY rapid-charging stations discounted (£0.61/kWh)

**£4.90/month**

## Tariff S

Recommended for 'casual drivers'

Should you wish to downgrade your tariff package after 12 months, there is the option to go for tariff S, which still offers you all the Mercedes me Charge<sup>1</sup> features based on flexible prices per kWh. This tariff is recommended for casual drivers.

Consisting of:

- All Mercedes me Charge<sup>1</sup> features
- Flexible prices per kWh

**£0/month**

<sup>1</sup>The connection of the communication module to the mobile phone network including the emergency call system depends on the respective network coverage and availability of network providers  
page: <https://eu.charge.mercedes.me/web/en/daimler-gb/tariffs>

<sup>2</sup>Tariff rate excludes the BP Pulse charging network

Price information is not guaranteed and is subject to change. Definitive price information can be found on the Digital Charging Solutions

# Next generation of home EV charging with Ohme

Mercedes-Benz plug-in vehicle customers with off-street parking can benefit from the convenience and speed of charging at home by installing an Ohme charger.

## Home charging with Ohme: from £925\* incl. VAT and standard installation

### Key benefits of Ohme:

Ohme specialise in providing future-proof electric vehicle charging solutions, in particular smart, affordable and easy-to-use charging products.

Save money: If you have a time-of-use tariff or a variable tariff, you'll pay less for your electricity at certain times of the day. Ohme uses your tariff information to charge your vehicle when the price is low to maximise your savings.

Ohme is the only EV charging provider to integrate with all energy tariffs, including Intelligent Octopus and OVO Charge Anytime – the next generation, smart EV charging tariffs.

Easy installation process.

Choice of tethered or untethered units.

Award-winning customer service – check Trustpilot for more information.

A 3-year warranty is included.

Connect your charger to the Ohme smartphone app to unlock smarter and cheaper charging at home. Easy-to-use, the Ohme app will give you full control to get more from your EV.

Ohme's chargers are compliant with the UK New Smart Charger Regulations for complete peace of mind.

### OZEV Grant:

You may be entitled to claim for an OZEV grant towards the cost of your home charger!  
To find out whether you are entitled please contact your local Mercedes-Benz Agent.

### Questions?

Please contact your local Mercedes-Benz Agent to submit an enquiry to your chosen charging partner on your behalf. To find your local Mercedes-Benz Agent, please click the button at the top right hand corner.

### Warning!

If you are planning to charge your Mercedes-Benz plug-in electric vehicle using a 3-pin domestic plug socket you must get a qualified electrician to inspect and sign off the socket to confirm it is safe and suitable to charge your vehicle. Do not use an electric vehicle 3-pin charge cable with an extension cord.

\*Price excludes £350 OZEV EVHS Grant. Price correct at time of publication, subject to change  
 †The home charger £350 Grant (including VAT) is only available to customers who meet the criteria of the Office for Zero Emission Vehicles (OZEV). For full details and eligibility criteria for the OZEV EVHS Grant, see <https://www.gov.uk/government/publications/electric-vehicle-homecharge-scheme-guidance-for-customers-version-21>.

# Home charging with Pod Point Simple, convenient, fast charging.

Mercedes-Benz plug-in vehicle customers with off-street parking can benefit from the convenience and speed of charging at home by installing a Pod Point home charger.

## Home charging with Pod Point: from £925\* incl. VAT and standard installation

For full terms and conditions please visit <https://pod-point.com/legal/home-charger-terms-of-sale>

### Key benefits of Pod Point:

Pod Point is one of the leading provider of EV charging in the UK with over 200,000 home chargepoints installed.

A comprehensive 3 year 'swap out' warranty is included.

Auto Power Balancing lets you adjust your charge so that your electrical supply doesn't get overloaded when your home is using a lot of energy.

Built-in earthing protection removes the needs for expensive earth rods.

Choice of tethered or untethered units; £925 for a 7 kW universal, and £975 for 7 kW tethered.

The Pod Point public network consists of over 9,200 charging bays across the UK.

5 year warranty as standard, free of charge.

The standard installation package includes up to 15m of external cabling.

Utilise charge scheduling in conjunction with an off-peak EV tariff to reduce your charging costs by 70% compared with the current Energy Price Cap.<sup>1</sup>

### OZEV Grant:

You may be entitled to claim for an OZEV grant towards the cost of your home charger<sup>2</sup>

To find out whether you are entitled please contact your local Mercedes-Benz Agent.

### Questions?

Please contact your local Mercedes-Benz Agent to submit an enquiry to your chosen charging partner on your behalf. To find your local Mercedes-Benz Agent, please click the button at the top right hand corner.

### Warning!

If you are planning to charge your Mercedes-Benz plug-in electric vehicle using a 3-pin domestic plug socket you must get a qualified electrician to inspect and sign off the socket to confirm it is safe and suitable to charge your vehicle. Do not use an electric vehicle 3-pin charge cable with an extension cord.

\*Price excludes £350 OZEV EVHS Grant. Price correct at time of publication, subject to change <sup>1</sup>Based on an off-peak tariff of 8 p/kWh compared with the energy price cap as of 1 October 2023 of 26.92 p/kWh <sup>2</sup>The home charger £350 Grant (including VAT) is only available to customers who meet the criteria of the Office for Zero Emission Vehicles (OZEV). For full details and eligibility criteria for the OZEV EVHS Grant, see <https://www.gov.uk/government/publications/electric-vehicle-homecharge-scheme-guidance-for-customers-version-21>.

<sup>1</sup>The indicated values were determined according to the prescribed measurement method - Worldwide Harmonised Light Vehicle Test Procedure (WLTP). Figures shown may include options which are not available in the UK. Battery Electric Vehicles (BEV) require mains electricity for charging, range figures determined with the battery fully charged. <sup>2</sup>Figures shown are for comparability purposes; only compare with other cars tested to the same technical procedures. Figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, factory-fitted options, accessories fitted (post registration), variations in weather, driving styles and vehicle load. Further information about the test used to establish range, power consumption and CO<sub>2</sub> figures can be found at <http://www.mercedes-benz.co.uk/WLTP>. <sup>3</sup>A different first year rate of Vehicle Excise Duty (Road Fund Licence) applies for new cars. Please refer to page 42 for the relevant rate for the second and subsequent years. <sup>4</sup>The recommended on-the-road price includes the Road Fund Licence applicable to the standard model plus delivery charge (£780.00 incl. VAT), new vehicle registration fee (£55.00) and number plates (£25.00 incl. VAT). VAT is calculated at the standard rate of 20%. Some of the model features, optional extras and colours shown may not be available, or may only be available in a different specification, or at a different price.

# Trailer coupling with ESP® trailer stabilisation

Expand your transport options: with this practical equipment you can hitch up both trailers or caravans and also mount cycle racks. The trailer coupling is ready for use in no time at all – and can be folded in again behind the rear bumper just as quickly when it is no longer needed.

**Trailer coupling with ESP trailer stabilisation<sup>1</sup>** (code 550) – designed and priced as a package, including items listed on the right-hand side.

**Available on all models**

**Total incl. VAT £750.00**

Operating safety is the top priority: to fold out the trailer coupling, you must first unlock it via the control button in the boot. As soon as the button light goes out, the trailer coupling is correctly engaged and is therefore ready for use.

Even when driving you can benefit from a comprehensive safety concept: the ESP® trailer stabilisation is able to intervene automatically in critical situations when driving with a trailer. The associated sensor system detects the trailer independently as soon as the electric plug is connected to your vehicle.

The ESP® stabilisation functions are automatically active from a speed of 40 mph. When undesired oscillating motions are detected, the Trailer Stability Assist actively dampens these with the aid of alternate brake actuation of each individual wheel. In most cases this is already sufficient to reduce dangerous oscillations. If necessary, the system additionally reduces the speed: for this, the engine torque is reduced and the vehicle is braked via all four wheels.

## Key highlights:

ESP® trailer stabilisation

Mounting on the vehicle

Folding trailer coupling

Operating button with LED light in the boot or in the tailgate

<sup>1</sup>Please be aware fitment of this option will impact expected range. In conjunction with all model lines and other equipment, different trailer loads may apply

# Driving Assistance package

The Driving Assistance package<sup>1</sup> contains a range of highly intelligent features to help you stay safe on the road – by making the drive more effortless, by warning of danger, and by taking steps to protect you in an emergency.

**Driving Assistance package<sup>1</sup>** (code P79) – designed and priced as a package, including items listed on the right-hand side.

**Available on all models**

**Total incl. VAT £1,495.00**

Active Steering Assist

**Active Blind Spot Assist** can warn the driver of vehicles in the blind spot during a lane change and can help to avoid a collision by means of one-sided braking intervention

**Active Braking Assist with cross-traffic function** can help to avoid accidents with vehicles ahead, crossing traffic and also pedestrians, and/or mitigate their consequences

**Active Distance Assist DISTRONIC** helps maintain the desired distance from the vehicle in front

**Active Emergency Stop Assist:** immediate emergency braking if evasion is impossible

**Active Lane-change Assist:** aids the driver with changing lanes by means of steering torque as soon as the driver initiates the change by activating the direction indicator

**Active Speed Limit Assist** ensures detected speed limits are automatically adopted as the set speed for Active Distance Assist DISTRONIC

**Active Steering Assist:** targeted steering intervention to prevent unintentional drifting out of lane

**Evasive Steering Assist** can support the driver in making evasive manoeuvres if, in a dangerous situation, he/she moves to avoid any pedestrian detected by the system

**PRE-SAFE system:** makes use of the time prior to an impending accident on your behalf. A host of measures are able to reduce the loads generated as a result

<sup>1</sup>Our driver assistance and safety systems are aids and do not relieve you of your responsibility as the driver. Please take note of the information in the Owner's Manual and the system limits which are described therein

## Interior

Ambient lighting – 64 colours. Colour changing based on temperature setting. Dynamic mode: atmospheric colour changes thanks to slow, stepless transition between different colours. When plugging in the charging cable, each state of charge is visualised for approx. 30 seconds, similar to the LED in the charging socket: establishing connection (pulsating yellow), ready to charge (continuous yellow), battery is being charged (pulsating green), battery full (continuous green)

Door sills – illuminated with 'EQA' lettering

Double cupholder

Floor mats – AMG

Floor mats – velour

Memory package – electrically adjustable front seats with memory function for driver and front passenger

Pedals – aluminium with rubber studs

Rear armrest with through-load feature

Seats – heated front seats

Seats – Seat Comfort package including manual front passenger seat height adjustment, manual seat cushion angle adjustment for the driver and front passenger and driver manual seat cushion depth adjustment for improved seating comfort thanks to a 60 mm greater supporting surface for the thighs

Seats – sports seats

Stowage compartment with retractable cover

Stowage package – 12V socket left of the luggage compartment; collapsible crate under load compartment floor; map pockets on backs of the front seats; stowage compartment under load compartment floor (lockable); twin USB charging ports in the rear (type C)

THERMATIC automatic climate control

THERMOTRONIC automatic climate control

# Genuine accessories

We've developed a range of accessories you can add to help personalise and enhance your EQA.

### All season floor mats

Made from robust, washable TPE material for heavy use. Completely covers the footwell. The higher edges and the surface design keep dirt and water at bay. Branded with the distinctive Mercedes star logo. (front: A24368086009051; rear: A24368092009051)

### Boot mat, reversible

This anti-slip mat by Mercedes-Benz protects the boot floor during loading and unloading. Made from 100% polyester. Double-sided: with rubberised, non-slip side and high-quality velour side. Prevents cargo from sliding around. Protects the load compartment floor from dirt and damp. (A2476841500)

### Stowage crate

The robust plastic stowage box creates order in the boot. The box can be divided into two sections using the enclosed rigid dividing element and be combined with the Mercedes-Benz boot tub thanks to the ribbed structure at the bottom. Capacity: 51 litres. (A0008140400)

### Boot tub, shallow

For everyday transport choose the easy-care boot tub. The shape of the tub, with its slightly raised edge, is optimally tailored to the load area. Structured surface prevents the load from sliding around. (A2438140000)

All the above accessories are subject to availability and compatibility. Please ask your Mercedes-Benz Authorised Repairer for more information

Images shown are for illustration purposes only

#### Basic carrier bars

Aluminium carrier bars, precision-tailored to the body of your Mercedes-Benz – the perfect basis for a range of Mercedes-Benz transport accessories. With integral tool for quick, easy fitting. Asymmetrical aerodynamic profile enhances ride comfort by significantly reducing wind noise. Crash-tested. Lockable. (A2478903000)

#### Roof box

Mercedes-Benz roof box, impact-resistant, sturdy, durable, recyclable, spray-protected. Opens on both sides. Single lock system with three locking mechanisms on each side. Gas-filled struts for easy opening and closing of lid. Maximum load capacity of 75 kg. Unladen weight 16 kg. (A0008401100)

#### Bicycle rack

Extremely lightweight bicycle rack, designed to allow you to attach a bicycle to the basic carrier bars. Please bear in mind your vehicle's permissible roof load. Bicycle racks are supplied singly. (A0008900293)

All the above accessories are subject to availability and compatibility. Please ask your Mercedes-Benz Authorised Repairer for more information. Images shown are for illustration purposes only.

# Road Fund Licence

All road vehicle registrations are subject to Vehicle Excise Duty (Road Fund Licence), which varies in accordance with the vehicle's CO<sub>2</sub> emissions. A first year rate for each taxation band will apply. The table below shows the bands (A–M) created by the DVLA and the corresponding Road Fund Licence. CO<sub>2</sub> emissions and the relevant Excise Duty are shown on the model pricing page.

Band	CO <sub>2</sub> emissions (g/km)	First year rate petrol and RDE2 diesel (£)	First year rate alternative fuel (£)	Electric vehicles		Alternative fuel vehicles		Petrol/diesel vehicles	
				Standard rate (£)	Premium rate (£) <sup>1</sup>	Standard rate (£)	Premium rate (£) <sup>1</sup>	Standard rate (£)	Premium rate (£) <sup>1</sup>
A	0	0.00	0.00	0.00	0.00	0.00	0.00	0.00	0.00
B	1 to 50	10.00	0.00	0.00	0.00	170.00	560.00	180.00	570.00
C	51 to 75	30.00	20.00	0.00	0.00	170.00	560.00	180.00	570.00
D	76 to 90	130.00	120.00	0.00	0.00	170.00	560.00	180.00	570.00
E	91 to 100	165.00	155.00	0.00	0.00	170.00	560.00	180.00	570.00
F	101 to 110	185.00	175.00	0.00	0.00	170.00	560.00	180.00	570.00
G	111 to 130	210.00	200.00	0.00	0.00	170.00	560.00	180.00	570.00
H	131 to 150	255.00	245.00	0.00	0.00	170.00	560.00	180.00	570.00
I	151 to 170	645.00	635.00	0.00	0.00	170.00	560.00	180.00	570.00
J	171 to 190	1,040.00	1,030.00	0.00	0.00	170.00	560.00	180.00	570.00
K	191 to 225	1,565.00	1,555.00	0.00	0.00	170.00	560.00	180.00	570.00
L	226 to 255	2,220.00	2,210.00	0.00	0.00	170.00	560.00	180.00	570.00
M	over 255	2,605.00	2,595.00	0.00	0.00	170.00	560.00	180.00	570.00

Some of the model features, optional extras and colours shown may not be available, or may only be available in a different specification, or at a different price  
<sup>1</sup>Premium rate only applicable to vehicles where the list price is over £40,000 including any factory-fitted options, standard UK delivery charge and VAT

# Services and insurance

## Mercedes-Benz ServiceCare

We believe that servicing costs should be as flexible and affordable as possible for your new EQA, which is why we offer ServiceCare, an easy way to budget for all your servicing costs. It spreads your bills into manageable payments based on whether you have a new or used Mercedes-Benz.

With ServiceCare we guarantee the price of parts and labour for up to four services and safeguard against any further inflation.

You can choose either to add your servicing costs into your monthly spend or pay the full amount in a one-off payment, giving you peace of mind that they are taken care of for the period of the plan.

[Click here for more information](#)

## Motor Insurance

We know that once you have chosen your Mercedes-Benz you can't wait to drive it – that's why we created First Cover<sup>3</sup>. It gives you 7 days' free comprehensive Motor Insurance when you buy a new or used vehicle from a Mercedes-Benz Agent. We will also send you a quote for annual cover, so you can enjoy the same peace of mind all year round.

[Apply for First Cover](#)

## Battery Warranty

The battery is under warranty for either a maximum distance of 100,000 miles or up to eight years from the date of first registration, whichever comes first.

## Warranty and breakdown cover

Every Mercedes-Benz comes with a three-year unlimited mileage warranty against manufacturing or material defects<sup>1</sup> and up to 30 years warranty against perforation due to corrosion from the inside out.<sup>2</sup> What's more, it's also covered by Mercedes-Benz Roadside Assistance – a unique package comprising up to 30 years pan-European breakdown assistance.<sup>2</sup>

<sup>1</sup>Applies to vehicles sold by Mercedes-Benz in the UK to its franchised Mercedes-Benz Agents

<sup>2</sup>Subject to full Terms and Conditions, dependent on date of registration, available upon request

<sup>3</sup>Terms and Conditions apply. We are an independent intermediary dealing with selected insurers in respect of annual insurance

Effective from December 2023 Production. Information correct at time of publication 24.11.2023.
