

smart #5 Pulse

Where all-wheel drive meets always-on tech.

Driving isn't always about getting from A to B - it's about what you find in between. The **smart #5 Pulse** is designed for the full journey, combining intuitive tech with all-wheel performance and everyday comfort. Dual 13 inch OLED central display screens bring navigation and media to both sides of the front seat. Fast charging and long range keep you ready for whatever the day brings. Whether you're heading into the city or out toward the mountains, **#5 Pulse** moves with you - stylish, capable, and always connected.

All-Wheel Drive and Drive Modes

From changing weather to uneven terrain, AWD and selectable drive modes help you stay steady and in control - no matter what the road throws your way.

Dual 13 inch OLED Central Display Screens

Two central display screens - one for the driver, one for the passenger - keep both sides of the cabin connected. Powered by AMD graphics and supported by Unreal Engine, they deliver a responsive, immersive interface for navigation and entertainment.

Ultra-Fast Charging and Long Range

Charge fast, drive far. With a cutting-edge 800-volt battery that charges from 10-80% in just 18 minutes and delivers up to 335 miles of range, enjoy more time on the road and less time planning around it.
