# Mercedes-Benz User Experience (MBUX)

Transforming the in-car user experience, thanks to MBUX: Controlled via voice or touch input, the innovative infotainment system can over time even predict personal habits thanks to artificial intelligence.

#### Voice control

- Activated by the keywords "Hey Mercedes", the new intelligent voice control LINGUATRONIC¹ lets you control many of the infotainment functions, including destination input, phone calls or music selection
- MBUX is able to understand different accents and will adjust to you over time
- MBUX even understands indirect commands. Feeling chilly? Just say "I feel cold" and MBUX will adjust the temperature for you

#### **Touch inputs**

- Beside voice control you can operate MBUX via touchscreen, the touchpad on the centre console, as well as touch control buttons on the steering wheel
- The touchpad recognises your handwriting should you wish to enter addresses or phone numbers silently

#### Personalisation

- Turn the EQV into your very own Mercedes-Benz by personalising driving modes, radio stations and much more
- Your personal settings can be saved in up to seven different profiles, making your driving experience the best one possible
- Thanks to artificial intelligence, MBUX is able to learn and adapt over time. It will be able to predict your personal habits, such as navigation for frequently-driven routes, or the radio station you like to listen to on your way home from work

#### Maintenance and service

 Wondering when the next service is due? Or how much further you can drive until you need to stop at a charging station? Just ask your MBUX – it will tell you the answer

The connection of the communication module to the mobile phone network including the emergency call system depends on the respective network coverage and availability of network providers

<sup>1</sup>LINGUATRONIC off-board functions are currently only available for three years

Design Technology Model lines Upholstery Model prices Personalisation Standard equipment Genuine Technical data Additional information

Additional

information

# PRE-SAFE® system

The PRE-SAFE® anticpatory occupant protection system can identify potentially critical driving situations at an early stage and initiate protective measures. The measures include reversible tightening of the driver's and co-driver's seat belts and closing any open windows and roof systems if necessary.

#### Standard on all models

In conjunction with electric seat adjustment, the co-driver seat is moved into a better position to cope with an accident. If the PRE-SAFE® system detects critical driving situations, it initiates precautionary occupant protection measures. Critical driving conditions include detected panic braking, in which the driver would like to slow down significantly more than is possible due to the road conditions - e.g. on an icy road surface. Critical steering movements at high speed can also trigger the protective mechanisms. Such steering movements indicate a shock reaction of the driver and can lead to an unstable driving situation.

#### The following measures can be deployed by PRE-SAFE®:

- Securing of driver and front passenger at an early stage by means of electromotive belt tensioning to avoid unwanted movement of the occupants
- Closing of the side windows and optional roof system to protect the occupants against dangers from the outside
- Positioning of the front passenger seat into an optimum position in the event of an accident in conjunction with the optional electric seat adjustment

### Digital Extras Stay connected any time, anywhere.

Digital Extras are a range of innovative online services designed to enhance your Mercedes-Benz experience. Accessible via mobile, tablet or PC, Digital Extras let you enjoy the highest standards of care and support, in a way that integrates seamlessly with your busy lifestyle.

#### Safety and Service - Digital Extras help to keep you and your car safe

Check your car's washer fluid level, tyre pressure and battery level from your phone so you'll be ready for every journey.

#### Live Traffic Information, Parked Vehicle Locator and much more

Forgot where you've parked? Parked Vehicle Locator1 will show you exactly where your car is as long as you're in a 1-mile radius of where you parked. Real-time traffic data and dynamic route with shorter journey times.

For more information speak to your local Mercedes-Benz Agent or visit the Mercedes-Benz store at shop.mercedes-benz.com/en-gb/connect

#### Comfort - connect to your car anytime, anywhere

Forgot to lock your car? With Remote Car Lock<sup>2</sup> you will receive a notification on your smartphone to let you know. With one tap, you can lock and unlock your vehicle so you never have to worry.

#### Specific services for all-electric vehicles from Mercedes-Benz

Check your charging status on the go and programme your pre-entry climate control and charging settings remotely. The specific navigation services for all-electric vehicles from Mercedes-Benz consider electrical range. topography and charging stations.

The EQV is the first fully-electric premium MPV from Mercedes-Benz. Although you can hardly hear a sound from the drive system, you'll be impressed by how effortlessly the 204 hp (150 kW) electric motor accelerates. When it comes to charging options, MB.CHARGE Public<sup>1</sup> is standard for three years with the EQV.

#### EQV 300

Battery electric vehicle, 204 hp/150 kW Electric range 221-222 miles - WLTP

OTR from **£92,205**<sup>2</sup>

#### Standard equipment

Acoustic ambient protection - the tone pitch changes depending on the driving conditions. You can therefore also differentiate whether you are braking or accelerating. Above 19 mph, the system is basically deactivated since wind and tyre noise tend to dominate at higher speeds

AC charging system rated at 11 kW AC

Charging cable for wallbox and public charging stations, Type 2 (Mode 3) -5 metres (Executive Extra-Long)

Charging cable for wallbox and public charging stations, Type 2 (Mode 3) -8 metres (Executive Long)

Charging socket

DC charging system rated at 110 kW DC

Pre-entry climate control1

Book a test drive

Radar-based recuperation

Suspension - comfort suspension

#### Attention

Please be aware that external factors such as weather, gradient and ambient temperature amongst others can significantly impact range.

Please also note that internal factors such as driving style and climate control settings etc. can also significantly impact range.

Using the pre-entry climate control<sup>1</sup> when plugged into a charge point will ensure the perfect ambience and ensure that your car is just how you like it, as well as making sure that your battery isn't used unnecessarily to heat/cool the vehicle (maximising range).

#### Electric range<sup>3</sup> 221-222 miles Charging time Public rapid charging (110 kW DC) 10-80%4 45 min

293-289 Wh/km Range power consumption, combined3,6

Battery type (capacity) lithium-ion high-voltage (90 kWh)

11 kW AC; 110 kW DC

### $MB.CHARGE\ Public^1$ One registration, one contract, one billing.

MB.CHARGE Public¹ provides access to a multitude of public charging stations located in shopping centres, hotels or at motorway services. A smartphone app as well as the vehicle's navigation system show the precise location, current availability and price at the selected charging station.

#### Tens of thousands charging stations in the UK

Growing network of charging providers includes bp pulse the largest charging network in the UK.

The connection of the communication module to the mobile phone network including the emergency call system depends on the respective network coverage and availability of network providers Price information is not guaranteed and is subject to change. Please be aware that this tariff will automatically renew after the 1 year promotion period - for definitive pricing information or should you not wish to continue with the tariff, your cancellation rights and current pricing can be found https://eu.charge.mercedes-benz.com/web/en/mb-gb/tariffs

Technology

#### Access to fast-charging stations

Enables customers to get access to charging stations of different providers with:

- Mercedes-Benz app
- · RFID card
- · Vehicle Head unit

#### **Charging with IONITY**

Discounted IONITY rapid-charging for one year at all IONITY stations.

#### **Green charging**

All charging using MB.CHARGE Public¹, will be retrospectively 'greened' by Mercedes-Benz. Please click **here** for more info.

#### Transparent and easy billing

One invoice charging processes for payment.

#### Easy access

Charging stations are displayed in Mercedes-Benz app and in MBUX multimedia system.

#### No fees

MB.CHARGE Public<sup>1</sup> is standard with EQV.

#### Charging settings and pre-entry climate control<sup>1</sup>

Enjoy your feel-good temperature when you enter your vehicle. You can simply preheat or precool the interior by setting the temperature via the Mercedes-Benz app. In addition, the current charge status can be retrieved at any time using the Mercedes-Benz app.

#### Navigation with Electric Intelligence

Offering you the greatest possible planning security on the road. Many items of information, such as a fast and convenient route, current state of battery charge, weather data and charging infrastructure, are interlinked. A convenient and time-efficient route is then suggested to you, including charging stops if necessary.

### MB.CHARGE Public<sup>1</sup> Tariffs

For more transparency and predictability, enjoy numerous features tailored to your charging habits with the MB.CHARGE Public fixed-priced tariffs S, M and L. Owners of a new allelectric model will be entitled to the MB.CHARGE Public<sup>1</sup> tariff L free of charge for the duration of 12 months.

#### Tariff L

#### Recommended for 'frequent drivers'

Owners of a new all-electric model are entitled to the tariff L free of charge for 12 months, benefitting from fixed prices, discounted rapid-charging at IONITY charging stations and complete transparency. This tariff is recommended for frequent and long-distance drivers.

#### Consisting of:

- All MB.CHARGE Public<sup>1</sup> features
- Fixed prices per kWh (AC: £0.45/kWh, after 300 mins +£0.06/min; DC: £0.62/kWh)<sup>2</sup>
- · IONITY rapid-charging stations discounted (£0.53/kWh)

Free of charge for the duration of 12 months. Thereafter: £10.90/month

#### Tariff M

#### Recommended for 'regular drivers'

Should you wish to downgrade your tariff package after 12 months but still want to benefit from fixed prices, discounted rapid-charging at IONITY charging stations and complete transparency, choose tariff M. This tariff is recommended for regular drivers.

#### Consisting of:

- All MB.CHARGE Public<sup>1</sup> features
- Fixed prices per kWh (AC: £0.52/kWh, after 300 mins +£0.06/min; DC: £0.69/kWh)<sup>2</sup>
- · IONITY rapid-charging stations discounted (£0.60/kWh)

#### Tariff S

#### Recommended for 'casual drivers'

Should you wish to downgrade your tariff package after 12 months, there is the option to go for tariff S, which still offers you all the MB.CHARGE Public<sup>1</sup> features based on flexible prices per kWh. This tariff is recommended for casual drivers

#### Consisting of:

- All MB.CHARGE Public<sup>1</sup> features
- Flexible prices per kWh

£4.90/month

£0/month

The connection of the communication module to the mobile phone network including the emergency call system depends on the respective network coverage and availability of network providers promotion period - for definitive pricing information or should you not wish to continue with the tariff, your cancellation rights and current pricing can be found https://eu.charge.mercedes-benz.com/web/en/mb-eb/tariffs

<sup>2</sup>Tariff rate excludes the BP Pulse charging network Price information is not guaranteed and is subject to change. Please be aware that this tariff will automatically renew after the 1 year

### Next generation of home EV charging with Ohme

Mercedes-Benz plug-in vehicle customers with off-street parking can benefit from the convenience and speed of charging at home by installing an Ohme charger.

#### Home charging with Ohme: from £925\* incl. VAT and standard installation

#### Key benefits of Ohme:

Ohme specialise in providing future-proof electric vehicle charging solutions, in particular smart, affordable and easyto-use charging products.

Save money: If you have a time-of-use tariff or a variable tariff, you'll pay less for your electricity at certain times of the day. Ohme uses your tariff information to charge your vehicle when the price is low to maximise your savings.

Ohme is the only EV charging provider to integrate with all energy tariffs, including Intelligent Octopus and OVO Charge Anytime - the next generation, smart EV charging tariffs.

Easy installation process.

Choice of tethered or untethered units.

Award-winning customer service check Trustpilot for more information. A 3-year warranty is included.

Connect your charger to the Ohme smartphone app to unlock smarter and cheaper charging at home. Easy-to-use, the Ohme app will give you full control to get more from your EV.

Ohme's chargers are compliant with the UK New Smart Charger Regulations for complete peace of mind.

#### **OZEV Grant:**

You may be entitled to claim for an OZEV grant towards the cost of your home charger.1

To find out whether you are entitled please contact your local Mercedes-Benz Agent.

#### Questions?

Please contact your local Mercedes-Benz Agent to submit an enquiry to your chosen charging partner on your behalf. To find your local Mercedes-Benz Agent, please click the button at the top right hand corner.

#### Warning!

If you are planning to charge your Mercedes-Benz plug-in electric vehicle using a 3-pin domestic plug socket you must get a qualified electrician to inspect and sign off the socket to confirm it is safe and suitable to charge your vehicle. Do not use an electric vehicle 3-pin charge cable with an extension cord.

Technology Model lines Upholstery Model prices Personalisation Standard Genuine Technical data Additional Design equipment accessories information

<sup>\*</sup>Price excludes £350 OZEV EVHS Grant. Price correct at time of publication, subject to change

The home charger £350 Grant (including VAT) is only available to customers who meet the criteria of the Office for Zero Emission Vehicles (OZEV). For full details and eligibility criteria for the OZEV EVHS Grant, see https://www.gov.uk/government/publications/electric-vehicle-homecharge-scheme-guidance-for-customers-version-21.

### Home charging with Pod Point Simple, convenient, fast charging.

Mercedes-Benz plug-in vehicle customers with off-street parking can benefit from the convenience and speed of charging at home by installing a Pod Point home charger.

#### Home charging with Pod Point: from £925\* incl. VAT and standard installation

For full terms and conditions please visit https://pod-point.com/legal/home-charger-terms-of-sale

#### Key benefits of Pod Point:

Pod Point is one of the leading provider of EV charging in the UK with over 250,000 home chargepoints installed.

Auto Power Balancing lets you adjust your charge so that your electrical supply doesn't get overloaded when your home is using a lot of energy.

Built-in earthing protection removes the needs for expensive earth rods.

Choice of tethered or untethered units; £925 for a 7kW universal, and £975 for 7kW tethered.

The Pod Point public network consists of over 9,200 charging bays across the UK.

5 year warranty as standard, free of charge.

The standard installation package includes up 15 m of external cabling.

Utilise charge scheduling in conjunction with an off-peak EV tariff to reduce your charging costs by up to 70% compared with the current Energy Price Cap.1

#### **OZEV Grant:**

You may be entitled to claim for an OZEV grant towards the cost of your home charger.2

To find out whether you are entitled please contact your local Mercedes-Benz Agent.

#### Questions?

Please contact your local Mercedes-Benz Agent to submit an enquiry to your chosen charging partner on your behalf. To find your local Mercedes-Benz Agent, please click the button at the top right hand corner.

#### Warning!

If you are planning to charge your Mercedes-Benz plug-in electric vehicle using a 3-pin domestic plug socket you must get a qualified electrician to inspect and sign off the socket to confirm it is safe and suitable to charge your vehicle. Do not use an electric vehicle 3-pin charge cable with an extension cord

\*Price excludes £350 OZEV EVHS Grant. Price correct at time of publication, subject to change 1Based on an off-peak tariff of 8 p/kWh compared with the energy price cap until 31 March 2025 of 2The home charger £350 Grant (including VAT) is only available to customers who meet the criteria of the Office for Zero Emission Vehicles (OZEV). For full details and eligibility criteria for the OZEV EVHS Grant, see https://www.gov.uk/government/publications/electric-vehicle-homecharge-scheme-guidance-for-customers-version-21.

### Genuine accessories

We've developed a range of accessories you can add to help personalise and enhance your EQV.

#### Mount for Tablet PC

Adjustable holder, suitable for popular Apple and Samsung tablets. Rotates 360° for horizontal or vertical use. Tilts vertically to allow optimal positioning for users of different heights. Can only be used in vehicles with pre-installation and in conjunction with a separately available Mercedes-Benz safety case. (A0008272200)

#### Safety case for iPad® Air2

Convenience and safety for your tablet: The elegant safety case in indestructible silicone provides your device with effective protection from knocks or scratches and secures it even more firmly in the holder. The supplied matt display film prevents scratches while also avoiding unwanted light reflections on the screen. Safety cases available for additional tablet models. (A0005800900)

#### Bluetooth® headphones

Bluetooth® headphones with optimum fit and high wear comfort for perfect listening pleasure even over extended periods. Thanks to Bluetooth® technology, the headphones allow wireless transmission between the headphones and audio source; also, a 3.5 mm jack connection is available for wired transmission. (A2238209903)

All the above accessories are subject to availability and compatibility. Please ask your Mercedes-Benz Authorised Repairer for more information

### Road Fund Licence

All road vehicle registrations are subject to Vehicle Excise Duty (Road Fund Licence), which varies in accordance with the vehicle's CO<sub>2</sub> emissions. A first year rate for each taxation band will apply. The table below shows the bands (A-M) created by the DVLA and the corresponding Road Fund Licence. CO<sub>2</sub> emissions and the relevant Excise Duty are shown on the model pricing page.

#### VED applicable for registrations up to 31 March 2025

				Electric vehicles		Alternative fuel vehicles		Petrol/diesel vehicles	
Band	CO <sub>2</sub> emissions (g/km)	First year rate petrol and RDE2 diesel (£)	First year rate alternative fuel (£)	Standard rate (£)	Premium rate (£) <sup>1</sup>	Standard rate (£)	Premium rate (£)1	Standard rate (£)	Premium rate (£)¹

### Services and insurance

#### **Mercedes-Benz Service Plans**

We believe that servicing and repair costs should be as flexible and affordable as possible for your EQV, which is why we offer a choice of Service Plans to make it easy to budget for all your servicing, MOT and repair costs. It spreads your bills into manageable monthly payments based on whether you have a new or used Mercedes-Benz.

- ServiceCare guarantees the price of parts and labour for up to four services and safeguards against any inflationary influences. It also covers your annual MOT fees depending on the age of your vehicle when you take your plan out.
- CompleteCare our most comprehensive plan covering all your servicing, MOT, wear & tear needs as well as Extended Warranty once your vehicle turns four years old.
- Extended Warranty protect yourself against sudden or unexpected repair costs after your initial warranty period has ended after three years. There are three policy options to choose from: 12-month, 24-month or a monthly pay-as-you-go option.

> Click here for more information

#### **Motor Insurance**

We know that once you have chosen your Mercedes-Benz you can't wait to drive it – that's why we created First Cover¹. It gives you 5 days' free comprehensive Motor Insurance when you buy a new or used vehicle from a Mercedes-Benz Agent. We will also send you a quote for annual cover, so you can enjoy the same peace of mind all year round.

> Apply for First Cover

#### **Battery Warranty**

The battery is under warranty for either a maximum distance of 100,000 miles or up to eight years from the date of first registration, whichever comes first.

#### Warranty and breakdown cover

Every Mercedes-Benz comes with a three-year unlimited mileage warranty against manufacturing or material defects<sup>2</sup> and up to 30 years warranty against perforation due to corrosion from the inside out.<sup>3</sup> What's more, it's also covered by Mercedes-Benz Roadside Assistance – a unique package comprising up to 30 years pan-European breakdown assistance.<sup>3</sup>

Applies to vehicles sold by Mercedes-Benz in the UK to its franchised Mercedes-Benz Agents

<sup>2</sup>Subject to full Terms and Conditions, dependent on date of registration, available upon request

<sup>3</sup>Terms and Conditions apply. We are an independent intermediary dealing with selected insurers in respect of annual insurance
