# The all-new electric CLA

The CLA 250+ with EQ technology

Experience the future of performance with the new CLA – built on a groundbreaking BEV drivetrain and equipped with our next-gen 85 kW NMC battery, it redefines electric driving with instant power, dynamic agility, and a smaller carbon footprint.

CLA 250+ with EQ technology

Battery electric vehicle, 272 hp/200 kW

Electric range 461-483 miles – WLTP

Available as:

Sport Edition, AMG Line Edition, AMG Line Premium Edition and AMG Line Premium Edition+

OTR from £45,615<sup>1</sup>

DC charging on the CLA can only be achieved at an 800 V DC charger. 800 V provides the quickest and most efficient charging experience

| Standard equipment  |  |
|---|--|
| 85 kW (usable) NMC battery  | Charging system – rated at 11 kW AC  |
| Acoustic presence indicator   | Charging system – rated at 320 kW DC   |
| Charging cable – Mode 3 cable (7 metres, straight) for wallbox and public charging stations | Comfort suspension   |
| Charging socket   | Mercedes-Benz App – Remote Services and extended MBUX functions <sup>2</sup> |

| Technical details                                    |                     |
|--|---------------------|
| Electric range <sup>3</sup>                          | 461-483 miles       |
| Charging time  |                     |
| DC charging station (320 kW DC) 10–80% <sup>4</sup>  | 22 mins             |
| AC charging station (11 kW AC) 0–100% <sup>5</sup>   | 9 hrs               |
| Electric energy consumption, combined <sup>3,6</sup> | 125–132 Wh/km       |
| Battery type (usable)                                | Lithium-ion (85 kW) |
| Capacity on-board charger                            | 11 kW AC, 320 kW DC |

<sup>1</sup>The recommended on-the-road price includes the Road Fund Licence applicable to the standard model plus delivery charge (£780.00 incl. VAT), new vehicle registration fee (£55.00), fuel (£50.00 incl. VAT), and number plates (£25.00 incl. VAT). VAT is calculated at the standard rate of 20%. Some of the model features, optional extras and colours shown may not be available, or may only be available in a different specification, or at a different price

<sup>2</sup>The connection of the communication module to the mobile phone network including the emergency call system depends on the respective network coverage and availability of network providers

<sup>3</sup>Figures shown are for comparability purposes; only compare with other cars tested to the same technical procedures. Figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, factory-fitted options, accessories fitted (post registration), variations in weather, driving styles and vehicle load. Further information about the test used to establish range, power consumption and CO<sub>2</sub> figures can be found at <http://www.mercedes-benz.co.uk/WLTP>

<sup>4</sup>Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10–80% charge using a wallbox (three-phase) or standard socket (single-phase)

<sup>5</sup>Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 0–100% charge using a wallbox (three-phase) or standard socket (single-phase)

<sup>6</sup>The certified electrical consumption is generally determined at maximum AC charging capacity using a Mode 3 cable. It is therefore recommended that vehicles with a HV battery preferably be charged at a wallbox or an AC charging station with a Mode 3 cable in order to achieve shorter charging times and improved charging efficiency

# MB.CHARGE Public<sup>1</sup> One registration, one contract, one billing

MB.CHARGE Public<sup>1</sup> provides access to a multitude of public charging stations located in shopping centres, hotels or at motorway services. A smartphone app as well as the vehicle's navigation system show the precise location, current availability and price at the selected charging station.

## MB.CHARGE Public – Private customer

### Tens of thousands charging stations in the UK

Growing network of charging providers includes bp pulse the largest charging network in the UK.

### Access to fast-charging stations

Enables customers to get access to charging stations of different providers with:

- Mercedes-Benz app
- RFID card
- Vehicle Head unit

### Green charging

All charging using MB.CHARGE Public,<sup>1</sup> will be retrospectively 'greened' by Mercedes-Benz.

### Transparent and easy billing

One invoice charging processes for payment.

### Easy access

Charging stations are displayed in Mercedes-Benz app and in MBUX multimedia system.

### No fees

Enjoy free access to MB.CHARGE Public's convenient, reliable, and user-friendly charging network.

## MB.CHARGE Public – Business customer

### Key features

- All MB.CHARGE Public Private customer features<sup>2</sup>
- Charging fleet portal
- Company payment and billing
- Flexible prices per kWh

<sup>1</sup>The connection of the communication module to the mobile phone network including the emergency call system depends on the respective network coverage and availability of network providers

<sup>2</sup>Excluding MB.CHARGE Public Private customer tariffs

# MB.CHARGE Public<sup>1</sup> Private customer tariffs<sup>2</sup>

Charge smarter with our Preferred Partner Network and access exclusive savings with lower rates on Tariff L and M compared to standard tariffs. Owners of a new all-electric model will be entitled to the MB.CHARGE Public<sup>1</sup> tariff L free of charge for the duration of 3 months.<sup>2</sup>

## Tariff L<sup>2,3</sup>

Recommended for 'frequent drivers'

Owners of a new all-electric model are entitled to the tariff L free of charge for 3 months, benefitting from the best exclusive savings of our tariffs as well as all MB.CHARGE Public<sup>1</sup> features. This tariff is recommended for frequent and long-distance drivers.

Consisting of:

- All MB.CHARGE Public<sup>1</sup> features
- Fixed prices per kWh
  - IONITY: £0.55/kWh
  - bp pulse and Smart Charge: £0.59/kWh + £0.17/min after 90 mins
- 15% discount across the rest of the MB.CHARGE Network

**Free of charge for the duration of 3 months.<sup>2</sup>**  
**Thereafter:**  
**£9.90/month**

## Tariff M<sup>2,3</sup>

Recommended for 'regular drivers'

Should you wish to downgrade your tariff package after 3 months, tariff M offers discounted pricing across our Preferred Partner Network, recommended for regular drivers.

Consisting of:

- All MB.CHARGE Public<sup>1</sup> features
- Fixed prices per kWh
  - IONITY: £0.62/kWh
  - bp pulse and Smart Charge: £0.69/kWh + £0.17/min after 90 mins
- 10% discount across the rest of the MB.CHARGE Network

**£4.90/month**

## Tariff S<sup>2</sup>

Recommended for 'casual drivers'

Should you wish to downgrade your tariff package after 3 months, tariff S offers all MB.CHARGE Public<sup>1</sup> features with flexible pay-per-use pricing across the entire network. This tariff is recommended for casual drivers.

Consisting of:

- All MB.CHARGE Public<sup>1</sup> features
- Flexible prices per kWh depending on provider

**£0/month**

<sup>1</sup>The connection of the communication module to the mobile phone network including the emergency call system depends on the respective network coverage and availability of network providers register from 1st December 2025 to qualify    Price information is not guaranteed and is subject to change. Please be aware that this tariff will automatically renew after the 3 month promotion period    <sup>2</sup>This offer is exclusively for consumers. The distinction between consumer and business is determined by the type of vehicle linkage (private profile or company profile)    <sup>3</sup>Customers must

# Next generation of home EV charging with Ohme

Mercedes-Benz plug-in vehicle customers with off-street parking can benefit from the convenience and speed of charging at home by installing an Ohme charger.

## Home charging with Ohme: from £925\* incl. VAT and standard installation

**Key benefits of Ohme:**

Ohme specialise in providing future-proof electric vehicle charging solutions, in particular smart, affordable and easy-to-use charging products.

Save money: If you have a time-of-use tariff or a variable tariff, you'll pay less for your electricity at certain times of the day. Ohme uses your tariff information to charge your vehicle when the price is low to maximise your savings.

Ohme is the only EV charging provider to integrate with all energy tariffs, including Intelligent Octopus and OVO Charge Anytime – the next generation, smart EV charging tariffs.

Easy installation process.

Choice of tethered or untethered units.

Award-winning customer service – check Trustpilot for more information.

A 3-year warranty is included.

Connect your charger to the Ohme smartphone app to unlock smarter and cheaper charging at home. Easy-to-use, the Ohme app will give you full control to get more from your EV.

Ohme's chargers are compliant with the UK New Smart Charger Regulations for complete peace of mind.

**OZEV Grant:**

You may be entitled to claim an OZEV grant towards the cost of your home charger<sup>1</sup>. To check your eligibility, simply contact your local Mercedes-Benz Agent.

**Questions?**

Need help with home charging solutions? Simply contact your nearest Mercedes-Benz Agent – they'll be happy to submit an enquiry to your preferred charging partner on your behalf.

**Warning!**

If you are planning to charge your Mercedes-Benz plug-in electric vehicle using a 3-pin domestic plug socket you must get a qualified electrician to inspect and sign off the socket to confirm it is safe and suitable to charge your vehicle. Do not use an electric vehicle 3-pin charge cable with an extension cord.

<sup>\*</sup>Price excludes £350 OZEV EVHS Grant. Price correct at time of publication, subject to change    <sup>1</sup>The home charger £350 Grant (including VAT) is only available to customers who meet the criteria of the Office for Zero Emission Vehicles (OZEV). Full details and eligibility criteria for the OZEV EVHS Grant can be found [here](#)

# Home charging with Pod

Simple, convenient, fast charging

Mercedes-Benz plug-in vehicle customers with off-street parking can benefit from the convenience and speed of charging at home by installing a Pod Point home charger.

## Home charging with Pod from £899\* inc. VAT and standard installation<sup>1</sup> or £0 Pod Drive sign-up fee

**Pod Drive**

Pod Drive is a new all-inclusive subscription service to spread the cost of installing a homecharger. £0 sign-up fee for Mercedes-Benz customers (usually £99) and £40 a month for 3 years. The service includes additional benefits such as 7,500 miles a year in cashback and enhanced warranty cover.

**Warning!**

If you are planning to charge your Mercedes-Benz plug-in electric vehicle using a 3-pin domestic plug socket you must get a qualified electrician to inspect and sign off the socket to confirm it is safe and suitable to charge your vehicle. Do not use an electric vehicle 3-pin charge cable with an extension cord.

**Key benefits of Pod:**

Pod is one of the leading provider of EV charging in the UK with over 250,000 home chargepoints installed.

Auto Power Balancing lets you adjust your charge so that your electrical supply doesn't get overloaded when your home is using a lot of energy.

Built-in earthing protection removes the needs for expensive earth rods.

Buy a Pod Point for a discounted cost of £899 for an untethered and £949 for a tethered. Or, sign up for Pod Drive with a £0 sign-up fee.

The Pod public network consists of over 9,200 charging bays across the UK.

5 year warranty as standard, free of charge.

The standard installation package includes up to 15m of external cabling.

**OZEV Grant:**

You may be entitled to claim an OZEV grant towards the cost of your home charger.<sup>2</sup> To check your eligibility, simply contact your local Mercedes-Benz Agent.

**Questions?**

Need help with home charging solutions? Simply contact your nearest Mercedes-Benz Agent – they'll be happy to submit an enquiry to your preferred charging partner on your behalf.

<sup>\*</sup>Price excludes £350 OZEV EVHS Grant. Price correct at time of publication, subject to change    <sup>1</sup>Full terms and conditions of home charging with Pod can be found [here](#)    <sup>2</sup>The home charger £350 Grant (including VAT) is only available to customers who meet the criteria of the Office for Zero Emission Vehicles (OZEV). Full details and eligibility criteria for the OZEV EVHS Grant can be found [here](#)

<sup>1</sup>The indicated values were determined according to the prescribed measurement method - Worldwide Harmonised Light Vehicle Test Procedure (WLTP). Figures shown may include options which are not available in the UK. Figures shown are for comparability purposes; only compare with other cars tested to the same technical procedures. Figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, factory-fitted options, accessories fitted (post registration), variations in weather, driving styles and vehicle load. Further information about the test used to establish fuel consumption and CO<sub>2</sub> figures can be found at <http://www.mercedes-benz.co.uk/WLTP> <sup>2</sup>A different first year rate of Vehicle Excise Duty (Road Fund Licence) applies for new cars. Please refer to page 34 for the relevant rate for the second and subsequent years <sup>3</sup>The recommended on-the-road price includes the Road Fund Licence applicable to the standard model plus delivery charge (£730.00 incl. VAT), new vehicle registration fee (£55.00), fuel (£50.00 incl. VAT), and number plates (£25.00 incl. VAT). VAT is calculated at the standard rate of 20%. Some of the model features, optional extras and colours shown may not be available, or may only be available in a different specification, or at a different price

Optional equipment may change the CO<sub>2</sub> value, please check your desired specification on the online configurator

# Trailer coupling with ESP® trailer stabilisation

Expand your transport options: with this practical equipment you can hitch up both trailers or caravans and also mount cycle racks. The trailer coupling is ready for use in no time at all – and can be folded in again behind the rear bumper just as quickly when it is no longer needed.

**Trailer coupling with ESP® trailer stabilisation** (code 550)  
**Available on all model lines** **Total incl. VAT £950.00**

Optional equipment may change the CO<sub>2</sub> value, please check your desired specification on the online configurator

Operating safety is the top priority: to fold out the trailer coupling, you must first unlock it via the control button in the boot. As soon as the button light goes out, the trailer coupling is correctly engaged and is therefore ready for use.

Even when driving you can benefit from a comprehensive safety concept: the ESP® trailer stabilisation is able to intervene automatically in critical situations when driving with a trailer. The associated sensor system detects the trailer independently as soon as the electric plug is connected to your vehicle.

The ESP® stabilisation functions are automatically active from a speed of 40 mph. When undesired oscillating motions are detected, the Trailer Stability Assist actively dampens these with the aid of alternate brake actuation of each individual wheel. In most cases this is already sufficient to reduce dangerous oscillations. If necessary, the system additionally reduces the speed: for this, the engine torque is reduced and the vehicle is braked via all four wheels.

Trailer mode: in a menu on the central display, select your trailer type and enter the maximum permissible speed. This allows your vehicle to adapt the functions of the speed limit assistant for trailer operation, for example.

FIX4BIKE®: using the additional guide bolts for the FIX4BIKE® system, you can attach a suitable bicycle rack in a particularly safe and stable manner. This increases the maximum load capacity to 100 kg.

# Standard equipment

● Standard    – Not available

|   | AMG Line Premium Edition Sport Edition | AMG Line Premium Edition | AMG Line Premium Edition+ |   |
|---|--|--------------------------|---------------------------|---|
| <b>Digital Extras (vehicle must be paired to a Mercedes me ID and services must be activated)</b>   |  |                          |                           |   |
| Adaptive Highbeam Assist  | ●                                      | ●                        | –                         | – |
| Adaptive Highbeam Assist Plus   | –                                      | –                        | ●                         | ● |
| Distance Assist DISTRONIC – the system uses sensors to detect vehicles travelling in the direction of travel and regulates the pre-selected target distance via the touch control panels on the steering wheel – without you having to press the accelerator or brake pedal                                       | ●                                      | ●                        | ●                         | ● |
| – Speed limit function: The DISTRONIC proximity assistant can adapt the speed to recognised speed limits  |  |                          |                           |   |
| – Restart function: The automatic restart function on motorways makes it easier for you to follow in stop-and-go traffic  |  |                          |                           |   |
| – Route-based speed adjustment: When you approach a bend, for example, the system automatically reduces the driving speed. Once you have negotiated the bend, your vehicle will automatically accelerate to the speed you have set or to the set distance to the vehicle in front                                 |  |                          |                           |   |
| – Functions when route guidance is active: If you have activated a navigation route and are approaching a route-relevant exit in the left-hand lane of the motorway, the system decelerates to an appropriate speed. This also works without active route guidance as soon as you press the turn signal indicator |  |                          |                           |   |
| MB.DRIVE PARKING ASSIST with reversing camera, and front and rear parking sensors   | ●                                      | ●                        | ●                         | ● |
| MBUX Entertainment – 3 years access to Digital Extras for entertainment as well as the in-car app store, including music and video streaming services   | –                                      | –                        | ●                         | ● |
| MBUX Navigation – fast navigation with up-to-date map data and precise real-time information (free for the first seven years)   | ●                                      | ●                        | ●                         | ● |

|   | AMG Line Premium Edition Sport Edition | AMG Line Premium Edition | AMG Line Premium Edition+ |   |

<sup>1</sup>Compatible mobile phone required

<sup>2</sup>The connection of the communication module to the mobile phone network including the emergency call system depends on the respective network coverage and availability of network providers

# Genuine accessories

We've developed a range of accessories you can add to help personalise and enhance your CLA.

### All season floor mats

Floor mats have to undergo rigorous testing before they are deemed worthy of the star logo: durability, fade-resistant colour and a neutral odour. The mats are precision-tailored to your Mercedes-Benz.  
(front: A17768080029G33; rear: A17768085029G33)

### Boot mat, reversible

This anti-slip mat by Mercedes-Benz protects the boot floor during loading and unloading. Made from 100% polyester. Double-sided: with rubberised, non-slip side and high-quality velour side. Prevents cargo from sliding around. Protects the load compartment floor from dirt and damp. Easy to clean with warm water. (A1746806301)

### Boot tub

Made from impact-resistant, non-slip polypropylene with ribbed texture. Vehicle's load-securing rings remain accessible. (A1748140000)

### Concertina load sill protector

The concertina load sill protector not only protects the boot, but also protects the bumper and boot sill from becoming scratched. (A2536931900)

All the above accessories are subject to availability and compatibility. Please ask your Mercedes-Benz Authorised Repairer for more information    Images shown are for illustration purposes only

DC charging on the CLA can only be achieved at an 800V DC charger. 800V provides the quickest and most efficient charging experience

<sup>1</sup>Figures according to Regulation (EC) No. 595/2009 in the currently applicable version    <sup>2</sup>Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10-80% charge using public rapid charging at 100 kW    <sup>3</sup>Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10-100% charge using a wallbox (three-phase) or standard socket (single-phase)    <sup>4</sup>Figures shown are for comparability purposes; only compare with other cars tested to the same technical procedures. Figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, factory-fitted options, accessories fitted (post registration), variations in weather, driving styles and vehicle load. Further information about the test used to establish range, power consumption and CO<sub>2</sub> figures can be found at <http://www.mercedes-benz.co.uk/WLTP>    <sup>5</sup>Specified voltage and current values refer to network infrastructure and can be limited by the vehicle    <sup>6</sup>Mass of the vehicle in running order with at least 90% full fuel tank, plus the mass of the driver (estimated by law at 75 kg), fuel and fluids, equipped with the standard equipment as specified by the manufacturer as well as, where applicable, the mass of the body, cab, trailer coupling and spare wheel(s) as well as tools. Optional extras, additional equipment and accessories can influence the weight, residual payload, rolling resistance, aerodynamics, etc., and therefore also affect the consumption/CO<sub>2</sub> values

# Road Fund Licence

All road vehicle registrations are subject to Vehicle Excise Duty (Road Fund Licence), which varies in accordance with the vehicle's CO<sub>2</sub> emissions. A first year rate for each taxation band will apply. The table below shows the bands (A–M) created by the DVLA and the corresponding Road Fund Licence. CO<sub>2</sub> emissions and the relevant Excise Duty are shown on the model pricing pages.

Road fund licence rates for tax year 2025/26, effective from 1 April 2025

| Band | CO <sub>2</sub> emissions (g/km) | First year rate (£) | Standard rate (£) | Premium rate (£) <sup>1</sup> |
|------|----------------------------------|---------------------|-------------------|-------------------------------|
| A    | 0                                | 10.00               | 195.00            | 620.00                        |
| B    | 1 to 50                          | 110.00              | 195.00            | 620.00                        |
| C    | 51 to 75                         | 130.00              | 195.00            | 620.00                        |
| D    | 76 to 90                         | 270.00              | 195.00            | 620.00                        |
| E    | 91 to 100                        | 350.00              | 195.00            | 620.00                        |
| F    | 101 to 110                       | 390.00              | 195.00            | 620.00                        |
| G    | 111 to 130                       | 440.00              | 195.00            | 620.00                        |
| H    | 131 to 150                       | 540.00              | 195.00            | 620.00                        |
| I    | 151 to 170                       | 1,360.00            | 195.00            | 620.00                        |
| J    | 171 to 190                       | 2,190.00            | 195.00            | 620.00                        |
| K    | 191 to 225                       | 3,300.00            | 195.00            | 620.00                        |
| L    | 226 to 255                       | 4,680.00            | 195.00            | 620.00                        |
| M    | over 255                         | 5,490.00            | 195.00            | 620.00                        |

Some of the model features, optional extras and colours shown may not be available, or may only be available in a different specification, or at a different price  
<sup>1</sup>Premium rate only applicable to vehicles where the list price is over £40,000 including any factory-fitted options, standard UK delivery charge and VAT

# Services and insurance

## Mercedes-Benz Service Plans

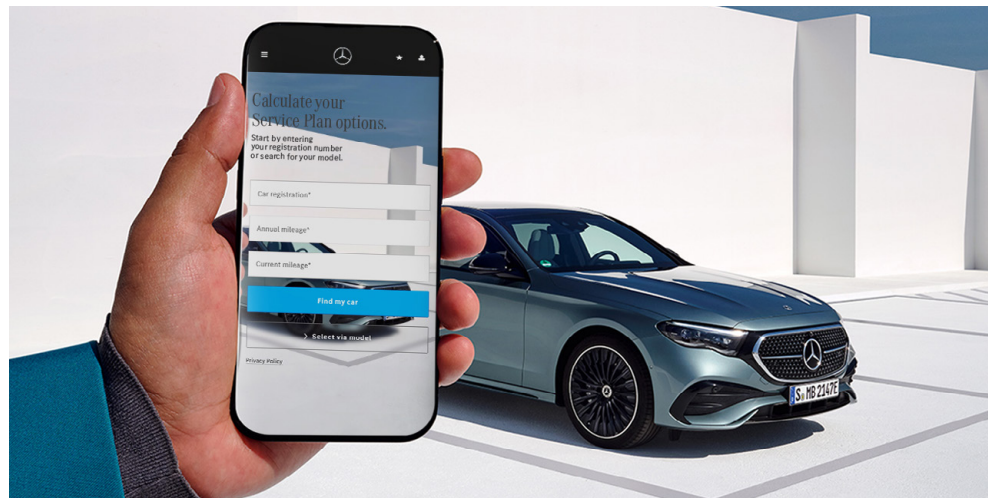

We believe that servicing and repair costs should be as flexible and affordable as possible for your CLA, which is why we offer a choice of Service Plans to make it easy to budget for all your servicing, MOT and repair costs. It spreads your bills into manageable monthly payments based on whether you have a new or used Mercedes-Benz.

- **ServiceCare** – guarantees the price of parts and labour for up to four services and safeguards against any inflationary influences. It also covers your annual MOT fees depending on the age of your vehicle when you take your plan out.
- **CompleteCare** – our most comprehensive plan covering all your servicing, MOT, wear & tear needs as well as Extended Warranty once your vehicle turns four years old.
- **Extended Warranty** – protect yourself against sudden or unexpected repair costs after your initial warranty period has ended after three years. There are three policy options to choose from: 12-month, 24-month or a monthly pay-as-you-go option.

[➤ Click here for more information](#)

## Motor Insurance

We know that once you have chosen your Mercedes-Benz you can't wait to drive it – that's why we created First Cover<sup>1</sup>. It gives you 5 days' free comprehensive Motor Insurance when you buy a new or used vehicle from a Mercedes-Benz Agent. We will also send you a quote for annual cover, so you can enjoy the same peace of mind all year round.

[➤ Apply for First Cover](#)

## Battery Warranty

The battery is under warranty for either a maximum distance of 100,000 miles or up to eight years from the date of first registration, whichever comes first.

## Warranty and breakdown cover

Every Mercedes-Benz comes with a three-year unlimited mileage warranty against manufacturing or material defects<sup>2</sup> and up to 30 years warranty against perforation due to corrosion from the inside out.<sup>3</sup> What's more, it's also covered by Mercedes-Benz Roadside Assistance – a unique package comprising up to 30 years pan-European breakdown assistance.<sup>3</sup>

<sup>1</sup>Terms and Conditions apply. We are an independent intermediary dealing with selected insurers in respect of annual insurance

<sup>2</sup>Applies to vehicles sold by Mercedes-Benz in the UK to its franchised Mercedes-Benz Agents

<sup>3</sup>Subject to full Terms and Conditions, dependent on date of registration, available upon request
