Mercedes-Benz User Experience (MBUX)

Transforming the in-car user experience, thanks to MBUX: Controlled via voice or touch input, the innovative infotainment system can over time even predict personal habits thanks to artificial intelligence.

Voice control

- Activated by the keywords "Hey Mercedes", the new intelligent voice control LINGUATRONIC¹ lets you control many of the infotainment functions, including destination input, phone calls or music selection
- MBUX is able to understand different accents and will adjust to you over time
- MBUX even understands indirect commands. Feeling chilly? Just say "I feel cold" and MBUX will adjust the temperature for you

Touch inputs

- Beside voice control you can operate MBUX via touchscreen, the touchpad on the centre console, as well as touch control buttons on the steering wheel
- The touchpad recognises your handwriting should you wish to enter addresses or phone numbers silently

Personalisation

- Turn the EQV into your very own Mercedes-Benz by personalising driving modes, radio stations and much more
- Your personal settings can be saved in up to seven different profiles, making your driving experience the best one possible
- Thanks to artificial intelligence, MBUX is able to learn and adapt over time. It will be able to predict your personal habits, such as navigation for frequently-driven routes, or the radio station you like to listen to on your way home from work

Maintenance and service

- Wondering when the next service is due? Or how much further you can drive until you need to stop at a charging station? Just ask your MBUX – it will tell you the answer

The connection of the communication module to the mobile phone network including the emergency call system depends on the respective network coverage and availability of network providers

¹LINGUATRONIC off-board functions are currently only available for three years

PRE-SAFE® system

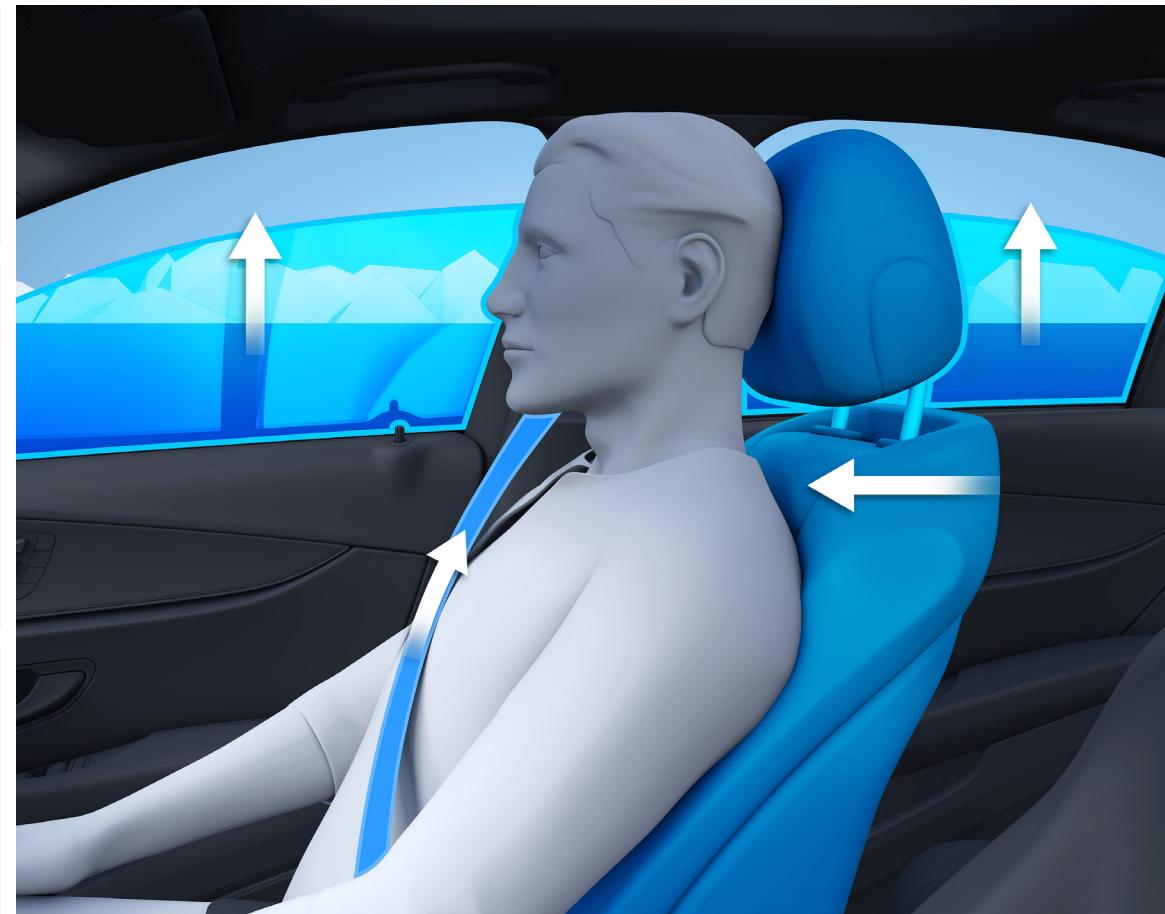

The PRE-SAFE® anticipatory occupant protection system can identify potentially critical driving situations at an early stage and initiate protective measures. The measures include reversible tightening of the driver's and co-driver's seat belts and closing any open windows and roof systems if necessary.

Standard on all models

In conjunction with electric seat adjustment, the co-driver seat is moved into a better position to cope with an accident. If the PRE-SAFE® system detects critical driving situations, it initiates precautionary occupant protection measures. Critical driving conditions include detected panic braking, in which the driver would like to slow down significantly more than is possible due to the road conditions – e.g. on an icy road surface. Critical steering movements at high speed can also trigger the protective mechanisms. Such steering movements indicate a shock reaction of the driver and can lead to an unstable driving situation.

The following measures can be deployed by PRE-SAFE®:

- Securing of driver and front passenger at an early stage by means of electromotive belt tensioning to avoid unwanted movement of the occupants
- Closing of the side windows and optional roof system to protect the occupants against dangers from the outside
- Positioning of the front passenger seat into an optimum position in the event of an accident in conjunction with the optional electric seat adjustment

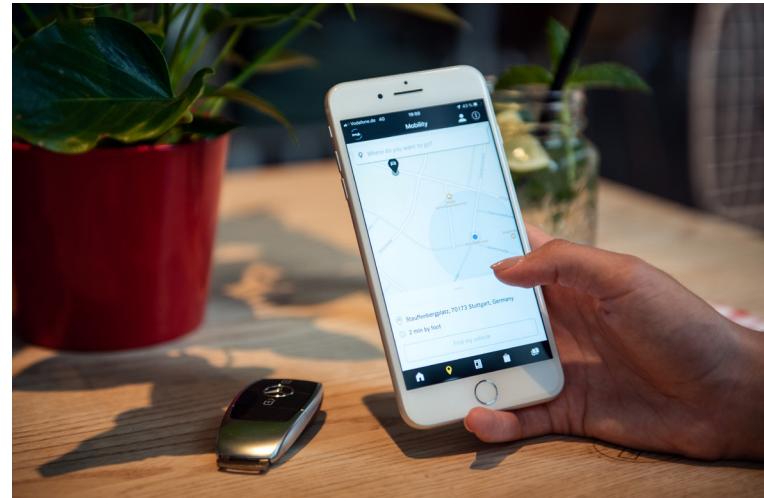

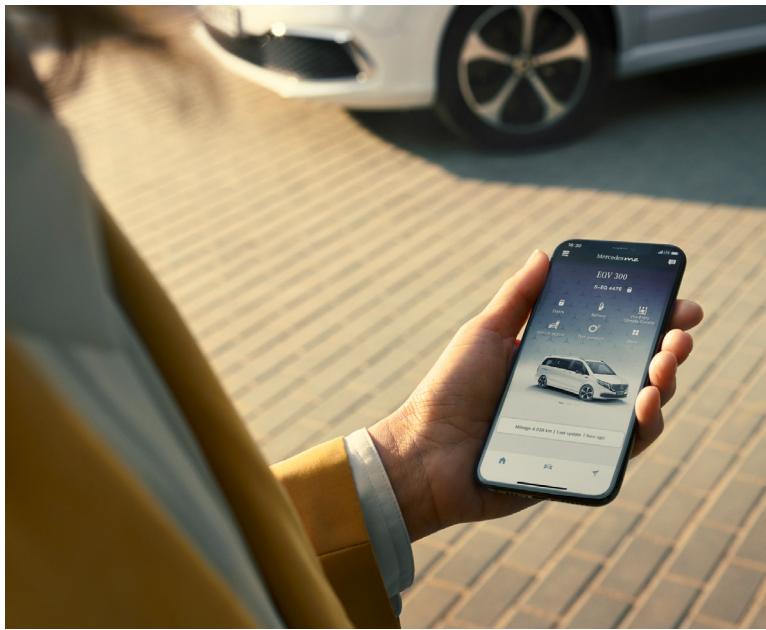

Digital Extras

Stay connected any time, anywhere

Digital Extras are a range of innovative online services designed to enhance your Mercedes-Benz experience. Accessible via mobile, tablet or PC, Digital Extras let you enjoy the highest standards of care and support, in a way that integrates seamlessly with your busy lifestyle.

Safety and Service - Digital Extras help to keep you and your car safe

Check your car's washer fluid level, tyre pressure and battery level from your phone so you'll be ready for every journey.

Live Traffic Information, Parked Vehicle Locator and much more

Forgot where you've parked? Parked Vehicle Locator¹ will show you exactly where your car is as long as you're in a 1-mile radius of where you parked. Real-time traffic data and dynamic route with shorter journey times.

For more information speak to your local Mercedes-Benz Agent or visit the
Mercedes-Benz store at shop.mercedes-benz.com/en-gb/connect

Comfort - connect to your car anytime, anywhere

Forgot to lock your car? With Remote Car Lock² you will receive a notification on your smartphone to let you know. With one tap, you can lock and unlock your vehicle so you never have to worry.

Specific services for all-electric vehicles from Mercedes-Benz

Check your charging status on the go and programme your pre-entry climate control and charging settings remotely. The specific navigation services for all-electric vehicles from Mercedes-Benz consider electrical range, topography and charging stations.

The connection of the communication module to the mobile phone network including the emergency call system depends on the respective network coverage and availability of network providers

¹Available on all models with the Vehicle Monitoring package. This option may vary between standard and additional cost dependent on the model

²Part of the Vehicle Status package. This option may vary between standard and additional cost dependent on the model

EQV

The EQV is the first fully-electric premium MPV from Mercedes-Benz. Although you can hardly hear a sound from the drive system, you'll be impressed by how effortlessly the 204 hp (150 kW) electric motor accelerates. When it comes to charging options, MB.CHARGE Public¹ is standard for three years with the EQV.

EQV 300

Battery electric vehicle, 204 hp/150 kW
Electric range 222 miles – WLTP

OTR from £92,255²

Standard equipment

Acoustic ambient protection – the tone pitch changes depending on the driving conditions. You can therefore also differentiate whether you are braking or accelerating. Above 19 mph, the system is basically deactivated since wind and tyre noise tend to dominate at higher speeds
Charging cable for wallbox and public charging stations, Type 2 (Mode 3) – 8 m
Charging socket
DC charging system rated at 110 kW DC
Pre-entry climate control³
Radar-based recuperation
AC charging system rated at 11 kW AC

Charging cable for wallbox and public charging stations, Type 2 (Mode 3) – 8 m
Charging socket
DC charging system rated at 110 kW DC
Pre-entry climate control³
Radar-based recuperation
Suspension – comfort suspension

Technical details

Electric range ³	222 miles
Charging time	
Public rapid charging (110 kW DC) 10–80% ⁴	45 min
Wallbox (11 kW AC) 10–100% ⁵	10 hrs
Power consumption, combined ^{3,6}	293–289 Wh/km
Battery type (capacity)	lithium-ion high-voltage (90 kWh)
Capacity on-board charger	11 kW AC; 110 kW DC

Attention

Please be aware that external factors such as weather, gradient and ambient temperature amongst others can significantly impact range.

Please also note that internal factors such as driving style and climate control settings etc. can also significantly impact range.

Using the pre-entry climate control³ when plugged into a charge point will ensure the perfect ambience and ensure that your car is just how you like it, as well as making sure that your battery isn't used unnecessarily to heat/cool the vehicle (maximising range).

¹The connection of the communication module to the mobile phone network including the emergency call system depends on the respective network coverage and availability of network providers. ²The recommended on-the-road price includes the Road Fund Licence applicable to the standard model plus delivery charge (£730.00 incl. VAT), new vehicle registration fee (£55.00) and number plates (£25.00 incl. VAT). VAT is calculated at the standard rate of 20%. Some of the model features, optional extras and colours shown may not be available, or may only be available in a different specification, or at a different price. ³Figures shown are for comparability purposes; only compare with other cars tested to the same technical procedures. Figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, factory-fitted options, accessories fitted (post registration), variations in weather, driving styles and vehicle load. Further information about the test used to establish range, power consumption and CO₂ figures can be found at <http://www.mercedes-benz.co.uk/WLTP>. ⁴Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10–80% charge using public rapid charging at 110 kW. ⁵Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10–100% charge using a wallbox (three-phase) or standard socket (single-phase). ⁶Specified voltage and current values refer to network infrastructure and can be limited by the vehicle.

MB.CHARGE Public¹ One registration, one contract, one billing

MB.CHARGE Public¹ provides access to a multitude of public charging stations located in shopping centres, hotels or at motorway services. A smartphone app as well as the vehicle's navigation system show the precise location, current availability and price at the selected charging station.

MB.CHARGE Public – Private customer

Tens of thousands charging stations in the UK

Growing network of charging providers includes bp pulse the largest charging network in the UK.

Access to fast-charging stations

Enables customers to get access to charging stations of different providers with:

- Mercedes-Benz app
- RFID card
- Vehicle Head unit

Green charging

All charging using MB.CHARGE Public,¹ will be retrospectively 'greened' by Mercedes-Benz.

Transparent and easy billing

One invoice charging processes for payment.

Easy access

Charging stations are displayed in Mercedes-Benz app and in MBUX multimedia system.

No fees

Enjoy free access to MB.CHARGE Public's convenient, reliable, and user-friendly charging network.

MB.CHARGE Public – Business customer

Key features

- All MB.CHARGE Public Private customer features²
- Charging fleet portal
- Company payment and billing
- Flexible prices per kWh

¹The connection of the communication module to the mobile phone network including the emergency call system depends on the respective network coverage and availability of network providers

²Excluding MB.CHARGE Public Private customer tariffs

[Book a test drive](#)

[Find your EQV](#)

[Find a Showroom](#)

MB.CHARGE Public¹ Private customer tariffs²

Charge smarter with our Preferred Partner Network and access exclusive savings with lower rates on Tariff L and M compared to standard tariffs. Owners of a new all-electric model will be entitled to the MB.CHARGE Public¹ tariff L free of charge for the duration of 3 months.²

Tariff L^{2,3}

Recommended for 'frequent drivers'

Owners of a new all-electric model are entitled to the tariff L free of charge for 3 months, benefitting from the best exclusive savings of our tariffs as well as all MB.CHARGE Public¹ features. This tariff is recommended for frequent and long-distance drivers.

Consisting of:

- All MB.CHARGE Public¹ features
- Fixed prices per kWh
 - IONITY: £0.55/kWh
 - bp pulse and Smart Charge: £0.59/kWh + £0.17/min after 90 mins
- 15% discount across the rest of the MB.CHARGE Network

Free of charge for the duration of 3 months.²

Thereafter:

£9.90/month

Tariff M^{2,3}

Recommended for 'regular drivers'

Should you wish to downgrade your tariff package after 3 months, tariff M offers discounted pricing across our Preferred Partner Network, recommended for regular drivers.

Consisting of:

- All MB.CHARGE Public¹ features
- Fixed prices per kWh
 - IONITY: £0.62/kWh
 - bp pulse and Smart Charge: £0.69/kWh + £0.17/min after 90 mins
- 10% discount across the rest of the MB.CHARGE Network

£4.90/month

Tariff S²

Recommended for 'casual drivers'

Should you wish to downgrade your tariff package after 3 months, tariff S offers all MB.CHARGE Public¹ features with flexible pay-per-use pricing across the entire network. This tariff is recommended for casual drivers.

Consisting of:

- All MB.CHARGE Public¹ features
- Flexible prices per kWh depending on provider

£0/month

¹The connection of the communication module to the mobile phone network including the emergency call system depends on the respective network coverage and availability of network providers. Register from 1st December 2025 to qualify. Price information is not guaranteed and is subject to change. Please be aware that this tariff will automatically renew after the 3 month promotion period.

²This offer is exclusively for consumers. The distinction between consumer and business is determined by the type of vehicle linkage (private profile or company profile). ³Customers must register from 1st December 2025 to qualify. Price information is not guaranteed and is subject to change. Please be aware that this tariff will automatically renew after the 3 month promotion period - for definitive pricing information or should you not wish to continue with the tariff, your cancellation rights and current pricing can be found <https://eu.charge.mercedes-benz.com/web/en/mb-gb/tariffs>

Next generation of home EV charging with Ohme

Mercedes-Benz plug-in vehicle customers with off-street parking can benefit from the convenience and speed of charging at home by installing an Ohme charger.

Home charging with Ohme: from £925* incl. VAT and standard installation

Key benefits of Ohme:

Ohme specialise in providing future-proof electric vehicle charging solutions, in particular smart, affordable and easy-to-use charging products.

Save money: If you have a time-of-use tariff or a variable tariff, you'll pay less for your electricity at certain times of the day. Ohme uses your tariff information to charge your vehicle when the price is low to maximise your savings.

Ohme is the only EV charging provider to integrate with all energy tariffs, including Intelligent Octopus and OVO Charge Anytime – the next generation, smart EV charging tariffs.

Easy installation process.

Choice of tethered or untethered units.

Award-winning customer service – check Trustpilot for more information.

A 3-year warranty is included.

Connect your charger to the Ohme smartphone app to unlock smarter and cheaper charging at home. Easy-to-use, the Ohme app will give you full control to get more from your EV.

Ohme's chargers are compliant with the UK New Smart Charger Regulations for complete peace of mind.

OZEV Grant:

You may be entitled to claim an OZEV grant towards the cost of your home charger.¹ To check your eligibility, simply contact your local Mercedes-Benz Agent.

Questions?

Need help with home charging solutions? Simply contact your nearest Mercedes-Benz Agent – they'll be happy to submit an enquiry to your preferred charging partner on your behalf.

Warning!

If you are planning to charge your Mercedes-Benz plug-in electric vehicle using a 3-pin domestic plug socket you must get a qualified electrician to inspect and sign off the socket to confirm it is safe and suitable to charge your vehicle. Do not use an electric vehicle 3-pin charge cable with an extension cord.

*Price excludes £350 OZEV EVHS Grant. Price correct at time of publication, subject to change.

¹The home charger £350 Grant (including VAT) is only available to customers who meet the criteria of the Office for Zero Emission Vehicles (OZEV). Full details and eligibility criteria for the OZEV EVHS Grant can be found [here](#)

Home charging with Pod

Simple, convenient, fast charging

Mercedes-Benz plug-in vehicle customers with off-street parking can benefit from the convenience and speed of charging at home by installing a Pod Point home charger.

Home charging with Pod from £899* inc. VAT and standard installation¹ or £0 Pod Drive sign-up fee

Pod Drive

Pod Drive is a new all-inclusive subscription service to spread the cost of installing a homecharger. £0 sign-up fee for Mercedes-Benz customers (usually £99) and £40 a month for 3 years. The service includes additional benefits such as 7,500 miles a year in cashback and enhanced warranty cover.

Key benefits of Pod:

Pod is one of the leading provider of EV charging in the UK with over 250,000 home chargepoints installed.

Auto Power Balancing lets you adjust your charge so that your electrical supply doesn't get overloaded when your home is using a lot of energy.

Built-in earthing protection removes the needs for expensive earth rods.

Buy a Pod Point for a discounted cost of £899 for an untethered and £949 for a tethered. Or, sign up for Pod Drive with a £0 sign-up fee.

The Pod public network consists of over 9,200 charging bays across the UK.

5 year warranty as standard, free of charge.

The standard installation package includes up 15 m of external cabling.

Warning!

If you are planning to charge your Mercedes-Benz plug-in electric vehicle using a 3-pin domestic plug socket you must get a qualified electrician to inspect and sign off the socket to confirm it is safe and suitable to charge your vehicle. Do not use an electric vehicle 3-pin charge cable with an extension cord.

OZEV Grant:

You may be entitled to claim an OZEV grant towards the cost of your home charger.² To check your eligibility, simply contact your local Mercedes-Benz Agent.

Questions?

Need help with home charging solutions? Simply contact your nearest Mercedes-Benz Agent – they'll be happy to submit an enquiry to your preferred charging partner on your behalf.

^{*}Price excludes £350 OZEV EVHS Grant. Price correct at time of publication, subject to change.

¹Full terms and conditions of home charging with Pod can be found [here](#)

²The home charger £350 Grant (including VAT) is only available to customers who meet the criteria of the Office for Zero Emission Vehicles (OZEV). Full details and eligibility criteria for the OZEV EVHS Grant can be found [here](#)

[Discover Accessories](#)[Book a test drive](#)[Find your EQV](#)[Find a Showroom](#)

Genuine accessories

We've developed a range of accessories you can add to help personalise and enhance your EQV.

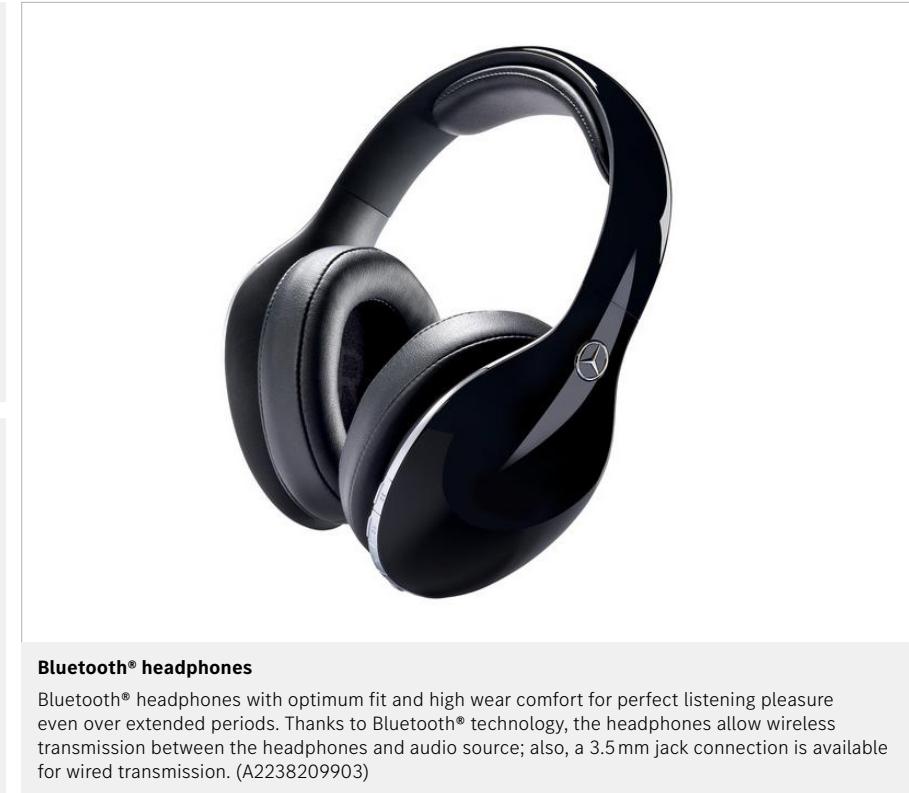

Mount for Tablet PC

Adjustable holder, suitable for popular Apple and Samsung tablets. Rotates 360° for horizontal or vertical use. Tilts vertically to allow optimal positioning for users of different heights. Can only be used in vehicles with pre-installation and in conjunction with a separately available Mercedes-Benz safety case. (A0008272200)

Safety case for iPad® Air2

Convenience and safety for your tablet: The elegant safety case in indestructible silicone provides your device with effective protection from knocks or scratches and secures it even more firmly in the holder. The supplied matt display film prevents scratches while also avoiding unwanted light reflections on the screen. Safety cases available for additional tablet models. (A0005800900)

Bluetooth® headphones

Bluetooth® headphones with optimum fit and high wear comfort for perfect listening pleasure even over extended periods. Thanks to Bluetooth® technology, the headphones allow wireless transmission between the headphones and audio source; also, a 3.5 mm jack connection is available for wired transmission. (A2238209903)

All the above accessories are subject to availability and compatibility. Please ask your Mercedes-Benz Authorised Repairer for more information

Battery type	lithium-ion high-voltage	
Electric motor type	asynchronous motor	
Battery capacity	kWh	90
Power ¹	hp (kW)	204 hp (150 kW)
Torque ¹	Nm at rpm	366/300
On-board charger	kW	11 AC; 110 DC
Emissions standard	EU6	

Transmission		
Single-speed automatic	●	●

Performance		
Acceleration 0-62 mph	sec	12.1
Top speed	mph	98
Charging time: Public rapid charging (110 kW DC) 10-80% ²		45 min
Wallbox (11 kW AC) 10-100% ³		10 hrs
Power consumption, combined ^{4,5}	Wh/km	289-293
Electric range - WLTP ³	miles	222

Model	EQV 300	
Weights and capacities		
Kerb weight ⁶	kg	2,920
Perm. Gross Vehicle Weight	kg	3,500
Turning circle	m	12.9
Insurance		
All variants	tba	
Insurance ratings may vary depending on model line and specification.		

¹Figures according to Regulation (EC) No. 595/2009 in the currently applicable version

²Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10-80% charge using public rapid charging at 110 kW

³Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10-100% charge using a wallbox (three-phase) or standard socket (single-phase)

⁴Figures shown are for comparability purposes; only compare with other cars tested to the same technical procedures. Figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, factory-fitted options, accessories fitted (post registration), variations in weather, driving styles and vehicle load. Further information about the test used to establish range, power consumption and CO₂ figures can be found at <http://www.mercedes-benz.co.uk/WLTP>

⁵Specified voltage and current values refer to network infrastructure and can be limited by the vehicle

⁶Mass of the vehicle in running order with at least 90% full fuel tank, plus the mass of the driver (estimated by law at 75 kg), fuel and fluids, equipped with the standard equipment as specified by the manufacturer as well as, where applicable, the mass of the body, cab, trailer coupling and spare wheel(s) as well as tools. Optional extras, additional equipment and accessories can influence the weight, residual payload, rolling resistance, aerodynamics, etc., and therefore also affect the consumption/CO₂ values

Road Fund Licence

All road vehicle registrations are subject to Vehicle Excise Duty (Road Fund Licence), which varies in accordance with the vehicle's CO₂ emissions. A first year rate for each taxation band will apply. The table below shows the bands (A-M) created by the DVLA and the corresponding Road Fund Licence. CO₂ emissions and the relevant Excise Duty are shown on the model pricing page.

Road fund licence rates for tax year 2025/26, effective from 1 April 2025

Band	CO ₂ emissions (g/km)	First year rate (£)	Standard rate (£)	Premium rate (£) ¹
A	0	10.00	195.00	620.00
B	1 to 50	110.00	195.00	620.00
C	51 to 75	130.00	195.00	620.00
D	76 to 90	270.00	195.00	620.00
E	91 to 100	350.00	195.00	620.00
F	101 to 110	390.00	195.00	620.00
G	111 to 130	440.00	195.00	620.00
H	131 to 150	540.00	195.00	620.00
I	151 to 170	1,360.00	195.00	620.00
J	171 to 190	2,190.00	195.00	620.00
K	191 to 225	3,300.00	195.00	620.00
L	226 to 255	4,680.00	195.00	620.00
M	over 255	5,490.00	195.00	620.00

Some of the model features, optional extras and colours shown may not be available, or may only be available in a different specification, or at a different price

¹Premium rate only applicable to vehicles where the list price is over £40,000 including any factory-fitted options, standard UK delivery charge and VAT

Services and insurance

Mercedes-Benz Service Plans

We believe that servicing and repair costs should be as flexible and affordable as possible for your EQV, which is why we offer a choice of Service Plans to make it easy to budget for all your servicing, MOT and repair costs. It spreads your bills into manageable monthly payments based on whether you have a new or used Mercedes-Benz.

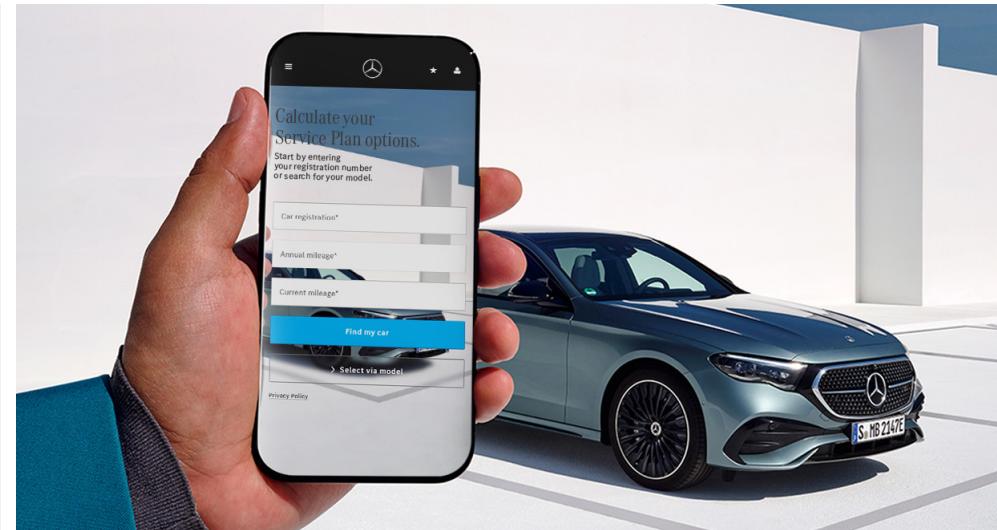

- **ServiceCare** – guarantees the price of parts and labour for up to four services and safeguards against any inflationary influences. It also covers your annual MOT fees depending on the age of your vehicle when you take your plan out.
- **CompleteCare** – our most comprehensive plan covering all your servicing, MOT, wear & tear needs as well as Extended Warranty once your vehicle turns four years old.
- **Extended Warranty** – protect yourself against sudden or unexpected repair costs after your initial warranty period has ended after three years. There are three policy options to choose from: 12-month, 24-month or a monthly pay-as-you-go option.

Motor Insurance

We know that once you have chosen your Mercedes-Benz you can't wait to drive it – that's why we created First Cover.¹ It gives you 5 days' free comprehensive Motor Insurance when you buy a new or used vehicle from a Mercedes-Benz Agent. We will also send you a quote for annual cover, so you can enjoy the same peace of mind all year round.

[Apply for First Cover](#)

Battery Warranty

The battery is under warranty for either a maximum distance of 100,000 miles or up to eight years from the date of first registration, whichever comes first.

Warranty and breakdown cover

Every Mercedes-Benz comes with a three-year unlimited mileage warranty against manufacturing or material defects² and up to 30 years warranty against perforation due to corrosion from the inside out.³ What's more, it's also covered by Mercedes-Benz Roadside Assistance – a unique package comprising up to 30 years pan-European breakdown assistance.³

¹Terms and Conditions apply. We are an independent intermediary dealing with selected insurers in respect of annual insurance

²Applies to vehicles sold by Mercedes-Benz in the UK to its franchised Mercedes-Benz Agents

³Subject to full Terms and Conditions, dependent on date of registration, available upon request

Effective from May 2025 Production. Information correct at time of publication 02.04.2025.
Prices and specifications are subject to change without prior notice.
