A message from **Richard Syree**, Head of Human Resources at City West Country Limited

At Mercedes-Benz South West, we are passionate about creating a diverse and inclusive place to work, with a commitment to equality and fairness at the heart of our values and everyday practices and policies. We aim to recruit, nurture and retain a diverse workforce that reflect the diversity of our customer base.

As part of this, we are committed to creating a gender-balanced workforce, ensuring that women have the same opportunity within the business to achieve strong career progression as men, which includes pay.

We do still have a greater number of men than women in roles that carry a higher proportion of performance related variable pay but we continue to see a shift in terms of the number of females in higher paid roles. Our representation of women in our upper middle quartile has increased from 19% to 35% which demonstrates our commitment to challenging the stereotype of the motor industry.

Across our wider workforce, we continue to have a consistent approach to bonus earnings, with men and women having equal opportunities for roles involving performance related variable pay. Our gender pay report continues to show that a higher proportion of female employees earn a bonus, 77.3% than males at 58.9%. The percentage of women earning a bonus has increased by 5% over the previous 12 months.

Focus on closing the gap

We consider ourselves to be a business where everyone can progress in their careers and achieve their full potential and are committed to supporting people to do so. Our recruitment methods ensure that our vacancies are accessible to everyone and comply with the Equality Act 2010. We continue with our commitment to attracting female candidates into what have historically been male dominated positions, with a focus on our apprenticeship programme along with an internal Aspiring Managers Programme. We continue to experience a number of internal promotions to middle management positions, which is a testament to our commitment to striving for a gender-balanced workforce.

Monitoring our performance

We will continue to monitor and analyse our gender pay gap so that we can create specific actions to reduce it. Our gender pay gap performance will continue to be reported to the Board on a regular basis.
